The Unity of Mystical Traditions Randall Studstill, 2018-08-14 This book argues that mystical doctrines and practices initiate parallel transformative processes in the consciousness of mystics This thesis is supported through a comparative analysis of Tibetan Buddhist Dzogchen rdzogs chen and the medieval German mysticism of Eckhart Suso and Tauler These traditions are interpreted using a system cybernetic model of consciousness This model provides a theoretical framework for assessing the cognitive effects of mystical doctrines and practices and showing how different doctrines and practices may nevertheless initiate common transformative processes This systems approach contributes to current philosophical discourse on mysticism by 1 making possible a precise analysis of the cognitive effects of mystical doctrines and practices and 2 reconciling mystical heterogeneity with the essential unity of mystical traditions

Rainbow Body and Resurrection Francis V. Tiso, 2016-01-26 A leading authority on the rainbow body traces its history in the encounter of religions in medieval Central Asia exploring a previously unimagined connection between early Dzogchen and the resurrection of Jesus Francis V Tiso a noted authority on the rainbow body explores this manifestation of spiritual

realization in a wide ranging and deeply informed study of the transformation of the material body into a body of light Seeking evidence on the boundary between physical science and deep spirituality that might elucidate the resurrection of Jesus he investigates the case of Khenpo A Ch a Buddhist monk who died in eastern Tibet in 1999 Rainbow Body and Resurrection chronicles the dissolution of Khenpo s material body within a week of his death including eye witness interviews Tiso describes the spiritual practices that give rise to the rainbow body and traces their history deep into the encounter of religions in medieval Central Asia His erudite exploration of the Tibetan phenomenon raises the fascinating question of whether there is a connection between the rainbow body and the dying and rising of Jesus Drawing on a wealth of recent research Tiso expands his discussion to include the contemplative geography out of which Dzogchen arose some time in the eighth century along the great Silk Road across Central Asia The result is an illuminating consideration of previously unimagined relationships between spiritual practices and beliefs in Central Asia **Have This Mind** James E.

Royster,2014-04-18 Have This Mind uses a rational logical and systematic approach to spirituality religion and God by focusing on the mind or consciousness rather than doctrine ritual etc It provides a model that resolves the many seemingly conflicting views of religion and God The four largest religions of the world Hinduism Buddhism Christianity and Islam are introduced in terms of their transformative dimensions that lead to an inclusive and eminently happy life These principles and practices are illustrated with biographies of exemplary saints and sages from the traditions Have This Mind outlines three different ways of being religious regardless of one s particular religious tradition based on a progressively maturing mind Of particular import to Christian readers are interpretations of biblical and theological views that facilitate transition from a traditional and mythic outlook tending toward exclusivism to one that is rational transrational and inclusive On the basis of an appreciative and inclusive view of the world s great religions one discovers how these religions can actually enhance one s own spirituality and religious outlook A perspective central to Have This Mind is that authentic religion and spirituality lie in the loving quality of one s life and not simply the ideas or beliefs held in one s mind **You Are the Eyes of the World** Longchenpa,2011-03-16 Just as the images on television are nothing more than light so are our experiences merely the dance of awareness Often we form attachments to or feel enslaved by these experiences But they are only reflections As easily as television pictures vanish when the channel is changed the power of our experiences fades if we penetrate to the heart of reality the light of the natural mind within everyone You Are the Eyes of the World presents a method for discovering awareness everywhere all the time This book does not discuss how to turn ordinary life off and it does not describe how to create beautiful spiritual experiences it shows how to live within the source of all life the unified field where experience takes place **The Mind is Mightier Than the Sword** Lama Surya Das,2009 An accessible guide to the essential teachings of Buddhism counsels readers on such topics as developing one s spiritual center integrating Buddhist principles into a daily life and making a meaningful difference in the world Original News-Tibet ,1987 *Will Yoga &*

Meditation Really Change My Life? Stephen Cope, 2025-04-08 Stephen Cope asked 25 yoga and meditation teachers to share their tales from the path their thoughts on how the long term practice of yoga and meditation has changed their lives The result is a unique collection of stories offering insight and inspiration for everyone seeking a more satisfying life
