The Early Air War in the Pacific Ralph F. Wetterhahn, 2019-11-22 During the first 10 months of the war in the Pacific Japan achieved air supremacy with its carrier and land based forces But after major setbacks at Midway and Guadalcanal the empire s expansion stalled in part due to flaws in aircraft design strategy and command This book offers a fresh analysis of the air war in the Pacific during the early phases of World War II Details are included from two expeditions conducted by the author that reveal the location of an American pilot missing in the Philippines since 1942 and clear up a controversial account involving famed Japanese ace Saburo Sakai and U S Navy pilot James Pug Southerland

Operation Goodtime and the Battle of the Treasury Islands, 1943 Reg Newell, 2012-10-05 A force of New Zealanders and Americans invaded the Treasury Islands in the South Pacific on October 27 1943 retaking them from their Japanese occupiers Codenamed Operation Goodtime the action marked the first time New Zealand forces took part in an opposed landing since Gallipoli in 1915 In an unusual allocation of troops in the American dominated theater New Zealand provided the fighting men and America the air naval and logistical support Confronting extreme risks against a determined Japanese foe the Allies nevertheless succeeded with relatively few casualties Because of the need for operational security Operation Goodtime received little publicity and has been relegated to a footnote in the history of the war in the Pacific This is the first complete account of the Allied seizure of the Treasury Islands

We Killed Yamamoto Si Sheppard, 2020-08-20 He masterminded the most devastating surprise attack against the United States in its history He was a marked man in the war that followed A key intelligence breakthrough enabled the military to pinpoint his location An elite team was assembled and charged not with his capture and subsequent trial but with his execution Osama bin Laden No this was Admiral Isoroku Yamamoto the Commander in Chief of the Japanese Combined Fleet during World War II This new title analyses the origins implementation and outcomes of Operation Vengeance the long range fighter interception of Admiral

Yamamoto's transport aircraft that sent him to his death on 18th April 1943. Author Si Sheppard examines every angle of the operation in detail including the role of intelligence work in pinpointing the time and location of Yamamoto's flight, the chain of command at the highest level of the US political and military establishment who ordered the attack and the technical limitations that had to be overcome in planning and conducting the raid. It also provides a close study of the aerial combat involved in completing the mission, offering a holistic exploration of the operation which avenged Pearl Harbor. *Case studies in the achievement of air superiority*, **Special Bibliographic Series** US Army Military History Research Collection, 1977 **Case Studies in the Achievement of Air Superiority** Benjamin Franklin Cooling (III), 1994

Weapon of Denial: Air Power and the Battle for New Guinea, **Fortnight of Infamy** John Burton, 2013-09-23. While America was preoccupied with the aftermath of Pearl Harbor, an even greater tragedy was unfolding across Southeast Asia. From Wake Island to Burma, the Empire of Japan opened the largest front in the history of warfare: an aircraft-driven invasion of colonial possessions throughout the Far East that crumbled the entire Western imperial legacy of the nineteenth century. Events during the first two weeks of battle set the stage for the greatest military defeats America and Great Britain would suffer during any conflict. This book offers the first comprehensive overview of the collapse of Allied air forces during the period between December 8 and 24, 1941. Written for a wide audience, it gives readers both a cockpit view of the desperate actions that took place and an understanding of why such heavy losses occurred. The narrative account includes enough detail and analysis to hold the interest of serious students of Pacific War aviation and enough exciting descriptions of air combat to attract those with little knowledge of the subject. Explaining how and why the Japanese were able to win a quick victory, John Burton points to US failures in the concepts for employment of airpower and a significant underestimation of Japanese air-mindedness and aviation capabilities. Failures that resulted in the loss or surrender of more than 200,000 troops at Bataan and Singapore. **An Aerospace Bibliography**, 1978 *The Solomon Islands Campaign, Guadalcanal to Rabaul* Eugene L. Rasor, 1997-01-28. Beginning in August 1942 and continuing through the end of 1943, when the Japanese base at Rabaul was isolated and bypassed, the Solomon Islands Campaign was conducted with combined Allied forces from the Southwest Pacific and Central Pacific commands and included several major amphibious landings, a dozen naval battles, and continuous air attacks. A comprehensive bibliography on the Solomon Islands Campaign; this book includes an historiographical narrative and an annotated bibliography of over 500 entries. The historiographical section reviews the works in the bibliography section and provides appropriate cross references, while the bibliography provides descriptive and evaluative annotations. The book provides a comprehensive survey of the literature on the Solomon Islands Campaign and also points to gaps in the literature and areas where further research is needed. Including both popular and scholarly literature, the work covers operations in all dimensions: land, water, underwater, air, and combinations of these. It also covers personnel and their experiences, memoirs, diaries, autobiographies, biographies, and oral histories, as well as intelligence.

PREFACE The chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 It is designed as a companion reference to the seven volume history of The Army Air Forces in World War II edited by Wesley Frank Craven and James Lea Cate The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services the complete rank both that at the time first mentioned and the highest rank held prior to the end of the war and name will be found in the index Only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used full name and title are given in the index Location of all towns islands etc is also made in the index In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in

which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used Where a village or hamlet was difficult to locate or where there were several such places with the same name in a general area the coordinates are given in the index In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made In these cases a question mark is placed in brackets after the index entry Accent marks such as umlauts were omitted **Dark Waters, Starry Skies** Jeffrey

Cox,2023-03-02 Esteemed Pacific War historian Jeffrey Cox has produced a fast paced and absorbing read of the crucial New Georgia phase of the Guadalcanal Solomons Campaign during the Pacific War Thousands of miles from friendly ports the US Navy had finally managed to complete the capture of Guadalcanal from the Japanese in early 1943 Now the Allies sought to keep the offensive momentum won at such a high cost Determined not to repeat their mistakes at Guadalcanal the Allies nonetheless faltered in their continuing efforts to roll back the Japanese land air and naval forces Dark Waters Starry Skies is an engrossing history which weaves together strategy and tactics with a blow by blow account of every battle at a vital point in the Pacific War that has not been analyzed in this level of detail before Using first hand accounts from both sides this book vividly recreates all the terror and drama of the nighttime naval battles during this phase of the Solomons campaign and the ferocious firestorm many Marines faced as they disembarked from their landing craft The reader is transported to the bridge to stand alongside Admiral Walden Ainsworth as he sails to stop another Japanese reinforcement convoy for New Georgia and vividly feels the fear of an 18 year old Marine as he fights for survival against a weakened but still determined enemy
