Pilots' Directions William Matthew Leary, 1990 **Mapping the Invisible Landscape** Kent C. Ryden, 1993 Any landscape has an unseen component a subjective component of experience memory and narrative which people familiar with the place understand to be an integral part of its geography but which outsiders may not suspect the existence of. Unless they listen and read carefully This invisible landscape is made visible through stories and these stories are the focus of this engrossing book. Traveling across the invisible landscape in which we imaginatively dwell Kent Ryden. He himself a most careful listener and reader. He asks the following questions What categories of meaning do we read into our surroundings What forms of expression serve as the most reliable maps to understanding those meanings Our sense of any place he argues consists of a deeply ingrained experiential knowledge of its physical makeup an awareness of its communal and personal history a sense of our identity as being inextricably bound up with its events and ways of life and an emotional reaction positive or negative to its meanings and memories Ryden demonstrates that both folk and literary narratives about place bear a striking thematic and stylistic resemblance Accordingly Mapping the Invisible Landscape examines both kinds of narratives For his oral materials Ryden provides an in depth analysis of narratives collected in the Coeur d'Alene mining district in the Idaho panhandle for his consideration of written works he explores the essay of place. The personal essay which takes as its subject a particular place and a writer's relationship to that place Drawing on methods and materials from geography folklore and literature Mapping the Invisible Landscape offers a broadly interdisciplinary analysis of the way we situate ourselves imaginatively in the landscape the way we inscribe its surface with stories Written in an extremely engaging style this book will lead its readers to an awareness of the vital role that a sense of place plays in the formation of local cultures to an understanding of the many layered ways in which place interacts with individual lives and to renewed appreciation of the places in their own lives and landscapes

Circling Back Joe C. Truett, 1996-04 There was so much space These words epitomize ecologist Joe Truett's boyhood memories of the Angelina River valley in East Texas Years and miles later back home for the funeral of his grandfather Truett began a long meditation on the world Corbett Graham had known and he himself had glimpsed a now vanished world where wild hogs and countless other animals rustled through the leaves cows ate pinewoods grass instead of corn oaks and hickories and longleaf pines were untouched by the corporate ax and the river flowed freely Truett's meditation resulted in this clear sighted portrait of a place over time its layers revealed by his love and care and curiosity Truett celebrates his family's heritage and the unspoiled natural world of the Piney Woods without nostalgia He recreates an older simpler more worthy age but he knows that we have lost touch with it because we wanted to he laments the loss but understands it What makes his prose so moving and so redeeming is this precise combination of honesty and sorrow overlaid by a quiet passion for both the natural and the human worlds

Oneota Flow David S. Faldet, 2009-04 Whether profiling the chief of the last hunter gatherers on the river an early settler witnessing her

Richard V. Francaviglia,1996-06-01 As an archetype for an entire class of places Main Street has become one of America s most popular and idealized images In *Main Street Revisited* the first book to place the design of small downtowns in spatial and chronological context Richard Francaviglia finds the sources of romanticized images of this archetype including Walt Disney s Main Street USA in towns as diverse as Marceline Missouri and Fort Collins Colorado Francaviglia interprets Main Street both as a real place and as an expression of collective assumptions designs and myths his Main Streets are treasure troves of historic patterns Using many historical and contemporary photographs and maps for his extensive fieldwork and research he reveals a rich regional pattern of small town development that serves as the basis for American community design He underscores the significance of time in the development of Main Street s distinctive personality focuses on the importance of space in the creation of place and concentrates on popular images that have enshrined Main Street in the collective American consciousness *Thoreaus Sense of Place* Richard J. Schneider,2000-05

Recent Thoreau studies have shifted to an emphasis on the green Thoreau on Thoreau the environmentalist rooted firmly in particular places and interacting with particular objects In the wake of Buell s *Environmental Imagination* the nineteen essayists in this challenging volume address the central questions in Thoreau studies today how green how immersed in a sense of place was Thoreau really and how has this sense of place affected the tradition of nature writing in America The contributors to this stimulating collection address the ways in which Thoreau and his successors attempt to cope with the basic epistemological split between perceiver and place inherent in writing about nature related discussions involve the kinds of discourse most effective for writing about place They focus on the impact on Thoreau and his successors of culturally constructed assumptions deriving from science politics race gender history and literary conventions Finally they explore the implications surrounding a writer s appropriation or even exploitation of places and objects *Annals of Iowa* ,1990 Rooted David R.
