Social Work in a Risk Society Stephen A.

Webb, 2006-01-23 This path breaking text constructs a new way of thinking about social work based on contemporary social theory. Working in a counter tradition that is suspicious of a number of governing ideas and practices in social work it draws on themes from Beck Giddens Rose to explore the impact of risk society and neo liberalism on social work. *Une économie plus dynamique dans un Canada fort et prospère* Mike Harris, Preston Manning, Fraser Institute (Vancouver, B.C.), Institut économique de Montréal, 2006 Des dépenses publiques et une imposition excessives restreignent la liberté économique des individus et des entreprises en réduisant leur revenu et en transférant le pouvoir de décisions économiques dans les mains de politiciens et de fonctionnaires. **Regulating the Liabilities of Agricultural Biotechnology** Stuart

Smyth, 2004 This book examines how government industry and society interact to reach a level of regulation that is deemed satisfactory for the newly emerged transformative technology that is agricultural biotechnology. It considers issues of risk and trust surrounding genetically modified plants for the production of food and pharmaceuticals. It describes how regulations have been produced to manage or in some cases ignore the risks from GM products. The scope is international and the book makes a significant contribution to the literature in this growing field of interest.
