Safe Love Other Political Acts:

Not Quite Hope and Other Political Emotions in the Gilded Age Nathan Wolff, 2019 *Not Quite Hope and Other Political Emotions in the Gilded Age* argues that late nineteenth century US fiction grapples with and helps to conceptualize the disagreeable feelings that are both a threat to citizens agency and an inescapable part of the emotional life of democracy then as now In detailing the corruption and venality for which the period remains known authors including Mark Twain Harriet Beecher Stowe Henry Adams and Helen Hunt Jackson evoked the depressing inefficacy of reform the lunatic passions of the mob and the revolting appetites of lobbyists and office seekers Readers and critics of these Washington novels historical romances and satiric romances have denounced these books for their negative tone seeing it as a sign of cynicism and elitism *Not Quite Hope* argues in contrast that their distrust of politics is coupled with an intense investment in it not quite apathy but not quite hope Chapters examine both common and idiosyncratic forms of political emotion including crazy love disgust cynicism election fatigue and the myriad feelings of hatred and suspicion provoked by the figure of the hypocrite In so doing the book corrects critics too narrow focus on sympathy as the American novel's model political emotion We think of reform novels as fostering feeling for fellow citizens or for specific causes This volume argues that *Gilded Age* fiction refocuses attention on the unstable emotions that continue to shape our relation to politics as such International Who's Who in Poetry 2005 Europa Publications, 2004-08-02 The 13th edition of the *International Who's Who in Poetry* is a unique and comprehensive guide to the leading lights and freshest talent in poetry today Containing biographies of more than 4 000 contemporary poets world wide this essential reference work provides truly international coverage In addition to the well known poets talented up and coming writers are also profiled Contents Each entry provides full career history and publication details An international appendices section lists prizes and past prize winners organizations magazines and publishers A summary of poetic forms and rhyme schemes The career profile section is supplemented by lists of Poets Laureate Oxford University professors of poetry poet winners of the Nobel Prize for Literature winners of the Pulitzer Prize for American Poetry and of the King's Queen's Gold medal and other poetry prizes *The Political Speechwriter's Companion* Robert A. offers the most practical advice and strategies for a career in political communication *Media on a Political Level* Stavros Arabatzis, 2025-08-03 The volume presented here seeks to shift the concept of media from its traditional domain to the political field Media are not merely to be understood as an intellectual or aesthetic game communicative linguistic written technical profit rational instrumental hermeneutic or mathematical informational but rather as a political state of emergency This media theory therefore addresses the question of why humanity instead of entering a truly human state is sinking into a new kind of barbarism Adorno Horkheimer According to our thesis this is a medial question one that arises from the original inverse setting kata strophēn of media and it subsequently determines their historical societal social and political development The main thesis of this book is that we are no longer dealing with media as a theoretical technical aesthetic or informational game Rather we are dealing with a political state of emergency where the issue is truth or falsehood within the polis and its prevailing laws These are two fundamentally different domains intellectual and aesthetic play on the one hand and political emergency on the other that must not be confused because the latter is existential and concerns life or death Today media themselves have become cultural technical economic and political weapons concealing both their essence and non essence As a result the once metaphorical character of technicist media theory was as the essence of media Kittler has been lost and media have been transferred into the political geopolitical financial and informational economic realm Kittler's media theoretical thesis media as military equipment media as repurposed war devices misunderstood in their function as long as their primary military purpose is ignored is according to our thesis in this book not to be understood as technical but as political state related and socio economic pre state Media theory thus becomes Stasiology theory of civil war and Polemology theory of war This antagonistic polemical principle sharpens the focus on all media in the public sphere such that the agonistic principle of struggle C Mouffe is merely a preliminary stage and still remains within the realm of play Therefore our concluding thesis is that we do not need a technical hermeneutic aesthetic phenomenological anthropological or ontological a priori to explain the essence or non essence of media What we need is a Stasiology and a Polemology capable of unlocking the entire antagonistic polemical field of media in the public sphere Only this sharpening of media in the public sphere allows us to move beyond the antagonistic polemical principle itself ECMT Round Tables Transport and Exceptional Public Events European Conference of Ministers of Transport, 2003-03-11 The Round Table examined large scale sporting cultural and festive events in Europe and the rest of the world and noted that setting ambitious targets contributes to the quality of the event **Spirituality and Social Justice: Spirit in the Political Quest for a Just World** Cyndy Baskin, Norma Jean Profitt , 2019-11-20 Spirituality and Social Justice explores how critically informed spirituality can serve as an inspiration and a political force in the quest for social and ecological justice Writing from various spiritual and religious worldviews including Indigenous Islamic Wicca Witchcraft Jewish Buddhist and Christian the authors practitioners and academics of social work draw on lived experience research and literature to illuminate how relationship with spirit can

orient ways of being and acting to build a more just society In Part One the authors foreground Indigenous spirituality as resistance and decolonization Part Two examines the complex ethical and political dimensions of spirituality including the ecological destruction of the Earth and the influence of contemporary neoliberalism Lastly Part Three explores spirituality in teaching and learning contexts both inside and beyond the classroom Engaging and well written Spirituality and Social Justice challenges the notion that practitioners must put aside their critical spirituality in teaching learning healing and practice Students practitioners and academics of social work and other helping professions will benefit from the unique insights into spirituality and religion and how they inform social justice activism Parliamentary Debates New Zealand. Parliament,1918 Dictionary of Political Economy Robert Harry Inglis Palgrave,1894 **Act as a Feminist** Lisa Peck,2021-03-30 Act as a Feminist maps a female genealogy of UK actor training practices from 1970 to 2020 as an alternative to traditional male lineages It re orientates thinking about acting through its intersections with feminisms and positions it as a critical pedagogy fit for purpose in the twenty first century The book draws attention to the pioneering contributions women have made to actor training highlights the importance of recognising the political potential of acting and problematises the inequities for a female majority inspired to work in an industry where they remain a minority Part One opens up the epistemic scope shaping a methodology to evaluate the critical potential of pedagogic practice It argues that feminist approaches offer an alternative affirmative position for training a via positiva and a way to re make mimesis In Part Two the methodology is applied to the work of UK women practitioners through analysis of the pedagogic exchange in training grounds Each chapter focuses on how the broad curriculum of acting intersects with gender as technique to produce a hidden curriculum with case studies on Jane Boston and Nadine George voice Niamh Dowling and Vanessa Ewan movement Alison Hodge and Kristine Landon Smith acting and Katie Mitchell and Emma Rice directing The book concludes with a feminist manifesto for change in acting Written for students actors directors teachers of acting voice and movement and anyone with an interest in feminisms and critical pedagogies Act as a Feminist offers new ways of thinking and approaches to practice **Hobbesian Moral and Political Theory** Gregory S. Kavka,2021-01-12 In recent years serious attempts have been made to systematize and develop the moral and political themes of great philosophers of the past Kant Locke Marx and the classical utilitarians all have their current defenders and are taken seriously as expositors of sound moral and political views It is the aim of this book to introduce Hobbes into this select group by presenting a plausible moral and political theory inspired by Leviathan Using the techniques of analytic philosophy and elementary game theory the author develops a Hobbesian argument that justifies the liberal State and reconciles the rights and interests of rational individuals with their obligations Hobbes s case against anarchy based on his notorious claim that life outside the political State would be a war of all against all is analyzed in detail while his endorsement of the absolutist State is traced to certain false hypotheses about political sociology With these eliminated Hobbes s principles support a liberal redistributive or satisfactory State and a

limited right of revolution Turning to normative issues the book explains Hobbes's account of morality based on enlightened self interest and shows how the Hobbesian version of social contract theory justifies the political obligations of citizens of satisfactory States
