Saint Augustine Father Of European And African Civilization:

Saint Augustine, Father of European and African Civilization Helga Zepp-LaRouche, Lyndon LaRouche, **Saint Augustine** Schiller Institute (Washington, D.C.). International Conference, 1985 **Saint Augustine** Nora Hamerman, 1985

A Higher Mission Kimberly D. Hill, 2020-10-15 In this vital transnational study Kimberly D Hill critically analyzes the colonial history of central Africa through the perspective of two African American missionaries Alonzo Edmiston and Althea Brown Edmiston The pair met and fell in love while working as a part of the American Presbyterian Congo Mission an operation which aimed to support the people of the Congo Free State suffering forced labor and brutal abuses under Belgian colonial governance They discovered a unique kinship amid the country's growing human rights movement and used their familiarity with industrial education popularized by Booker T Washington's Tuskegee Institute as a way to promote Christianity and offer valuable services to local people From 1902 through 1941 the Edmistons designed their mission projects to promote community building to value local resources and to incorporate the perspectives of the African participants They focused on childcare teaching translation construction and farming ministries that required constant communication with their Kuba neighbors Hill concludes with an analysis of how the Edmistons pedagogy influenced government sponsored industrial schools in the Belgian Congo through the 1950s A Higher Mission illuminates not only the work of African American missionaries who are often overlooked and under studied but also the transnational implications of black education in the South Significantly Hill also addresses the role of black foreign missionaries in the early civil rights movement an argument that suggests an underexamined connection between earlier nineteenth century Pan Africanisms and activism in the interwar era **The Power of Reason 1988** Lyndon H. LaRouche, Jr., 2015-09-02 From the Author's

Foreword 1987 During the course of the past nearly twenty years I have become perhaps the most controversial among the influential international figures of this decade Unlike all of the other leading candidates for the U S presidency since 1945 I am an influential original thinker This is not to suggest that such prospective candidates as Vice President George Bush and Senator Robert Dole are lacking in intelligence or executive abilities For the past forty years the successful candidates for the presidency have been persons who in the customary manner of speaking advanced their political career up to that point by doing the right thing at the right time saying and doing nothing which will make enemies among important factions of the establishment Bush and Dole for example have adapted to those rules for success under ordinary conditions However this is a crisis in such crises what is customarily successful becomes a failure Our nation has once again entered into a time when only the unusual succeeds and the usual fails We have entered into a period of crisis in which only original thinkers are qualified to lead On paper our nation is a constitutional democratic republic In reality it has not been such a republic for approximately one hundred years certainly not since the sweeping changes in our form of government introduced during the presidency of Theodore Roosevelt Most of the time the policies of government the selection of most leading candidates for

federal office and the majority of popular opinion have been regulated by behind the scenes committees representing what is called the establishment Under this arrangement candidates for leading office present themselves like job applicants for corporate executive appointments to this establishment The establishment either gives such candidates permission to campaign or not at this time If given such permission the candidate so authorized seeks backing for his or her election by the establishment by proving to the establishment that he or she can sell the policy which the establishment has decided to push at that time I began to understand this in 1947 I wished General Dwight Eisenhower to campaign for the 1948 Democratic nomination The general replied to me stating agreement with my policy arguments in support of his candidacy but informing me his candidacy was not appropriate at that time There is no doubt that Eisenhower could have won the 1948 nomination and election by a landslide had the establishment permitted him to campaign

The Quest for a Theological Connection with the (African Holocaust) Transatlantic Chattel Slave Trade in Africans Dr. Robinson A. Milwood, 2017-09-13 The quest for a theological connection with the heinous transatlantic chattel slave trade in Africans is an academically and intellectually lignum vitae nut to crack It must be cracked by all means necessary to do a measured dose of justice to the subject of the slave trade that British academic and encomium scholars have been treating for centuries with impunity that it has no relevance theologically and philosophically ignoring the historical and racial facts that British proslavery groups defended and opposed the abolition of the brutal and immoral forced enslavement of Africa on biblical grounds with a bent theology and misleading hermeneutics The notebook of Rev Dr James Ramsay is a solid evidence of how British proslavery movement operated This attitude was false groundless deceptive and above all a massive cover up of the iniquities and abomination of the slave trade in Africa by an extraordinary committee of presidium syndication which I shall deal with during the evolution of this significant thesis

Western European and British Barbarity, Savagery, and Brutality in the Transatlantic Chattel Slave Trade Dr. Robinson A. Milwood, Phd, 2013-06 Man makes history in a fashion and history also makes man As with other men the historical experience of the African over the centuries has had a profound effect on his self image as well as on his perception of the external world Perhaps more than other men the African in pre colonial times developed a strong historical tradition and his perception of himself and his world came to depend very much on his view of the past European colonialism brief as it was produced a traumatic effect largely because it tried to impose on the African a gross distortion of his historical tradition
