Saint-simon Et Le Systeme Industriel Emmanuel de Witt,1973 **Saint-Simon et le système industriel** Emmanuel de Witt,1912 *Saint-Simon et le système industriel* Emmanuel de Witt,1902 *Du système industriel* Claude-Henri de Saint-Simon,1821 *Political Ideas of the Utopian Socialists* Keith Taylor,2013-11-26 First Published in 1982 In this book Taylor has selected for special attention the work of Saint Simon and his disciples the SaintSimonians Owen Fourier Cabet and Weitling those thinkers who made the most important contributions to the development of early socialist theory The author discusses the designation of utopian which entered into the conventional vocabulary of the history of ideas and is now used almost without question This title argues that these thinkers were certainly utopian in the sense that they sought to describe the structure of an ideal future society *The Normative Structure of Sociology (RLE Social Theory)* Hermann Strasser,2014-08-13 In this provocative analysis of the central issues and developments in modern social theory Dr Strasser contends that enquiry into the function tasks and mission of sociology as a discipline can be understood only in relation to the subject s historical development He believes that a discussion of the origin and intention of sociology particularly in relation to the established social order enables us to grasp fully the nature of sociological theory both past and present He maintains that a sociologist s own position in society and consequently his views on its development and his way of expressing those views will affect the theoretical position he takes up [Auguste Comte: Volume 1](#) Mary Pickering,1993-11-26 The first volume of a two volume intellectual biography of Auguste Comte the founder of modern sociology and positivism

Oeuvres de Claude Henri de Saint-Simon Claude-Henri de Saint-Simon,1966 [Henryk Grossman Works, Volume 1](#) Henryk Grossman,2018-11-26 This collection includes texts by Henryk Grossman that are primarily concerned with economic theory monographs articles essays letters and manuscript material Many have never been published in English before some in any language The first in four volumes of Grossman s works it provides the basis for a deeper understanding of Grossman s contributions to Marxist economic theory and critique of bourgeois economics Rick Kuhn s introduction explains the contexts in which the texts were written and establishes their contemporary relevance **International Law and Religion** Martti Koskenniemi,Mónica García-Salmones Rovira,Paolo Amorosa,2017-08-11 This books maps out the territory of international law and religion challenging received traditions in fundamental aspects On the one hand the connection of international law and religion has been little explored On the other most of current research on international legal thought presents international law as the very victory of secularization By questioning that narrative of secularization this book approaches these traditions from a new perspective From the Middle Ages early conceptualizations of rights and law to contemporary political theory the chapters bring to life debates concerning the interaction of the meaning of the legal and the sacred The contributors approach their chapters from an array of different backgrounds and perspectives but with the common objective of investigating the mutually shaping relationship of religion and law The collaborative endeavour that this volume offers

makes available substantial knowledge on the question of international law and religion
