Companion Species Mathilde van Dijk, 2024-11-28 This book explores the connection between saints and animals and how the power over animals has been a characteristic of saints from their beginnings in the Early Church The connection between saints and humans is examined with the saint as a human rising beyond humanity touching the divine and the non human animal as a creature which is connected to and yet removed from humanity and which may have a connection to the sacred itself This volume transcends traditional religious boundaries by including Christian saints as well as similar figures in Islam and Norse religions It operates on the cusp of two exciting and innovative fields hagiographic and animal studies It shows the complexities of human animal interaction and the sacred authorities clashing with experiential knowledge metaphorical animals as opposed to real animals ranging from helpers or opponents of saints disguises of demons or identity markers of a human community Companion Species will be of value to scholars and students interested in medieval history Europe and religion as well as social and cultural history

Animals in Heaven? Terry Martin, 2024-09-26 Christians of all traditions have often puzzled with the question Do dogs go to heaven Drawing on Catholic teaching and on his long pastoral experience as a parish priest Terry Martin expands that concept to consider wider issues around all animals domesticated and free living and why they are here Within a context of Christian faith he seeks to understand the place of animals in God s complex creation and the relationship that human beings have for good or ill with those animals More than that he looks at the big questions which so many ask about who under God animals are and what meaning if any animal lives have from a Catholic Christian perspective *Animals*, 1888

A Snarl Theology John Francis Pearing, John Sorensen, 2023-01-20 A Snarl Theology calls God a merciful creator a big picture divinity bigger than anything imaginable Scripture confirms that in the restoration of the world and all its environs there will be a settlement between God and his creatures A covenant to set animals and us back as we were meant to be I will make a covenant for them on that day with the beasts of the field with the birds of the air and with the things that crawl on the ground Hosea 2 20 Redemption is the divine act of follow through regarding covenant washing away our faults defects and foibles and taking us into the arms of the divine Are animals rewarded with redemption like us with a full restoration To imagine that God will not reward these martyred creatures who play a significant role in human redemption weakens the concept and promise of paradise Animals are sentient beyond our understanding residents in a universe where God communicates with everyone This animal kingdom theology implies that animals too hear God s voice A Snarl Theology s hope for animals to be our redemptive allies shouldn t cancel doctrine upset dogma or countermand Christianity It should increase our love of God

Facing the Wild Chilla Bulbeck, 2012-06-25 What do wild animals mean to humans Will they survive both rampant habitat loss and extinction caused by human encroachment and as ecotourists our enthusiasm for them With ecotourism now the fastest growing segment of tourism and encounters with wild animals be it swimming with dolphins going on safari or bird watching ever more popular these are critical questions Yet until now little has been known about why people crave encounters with wild animals and the meaning for the ecotourism industry conservation efforts and society at large Facing the Wild is the first serious empirical examination of why people seek out animals in their natural environment what the desire for this experience tells us about the meanings of animals nature authenticity and wilderness in contemporary industrialized societies and whether visitors change their environmental perspectives and behaviour as the custodians of wildlife parks would like them to The book explores the contradictions and ambivalence that so many people experience in the presence of wild nature in loving it we may diminish it and in the act of wanting to see it we may destroy it Ultimately the book makes a case for respectful stewardship of a hybrid nature and provides insight for both practitioners and ecotourists alike
