Sir William Thomas Charley

Saladin And The Kingdom Of Jerusalem Sic The Mus:

The Latin Kingdom of Jerusalem, 1099 to 1291 A.D. Claude Reignier Conder, 1897 *Crusading and the Crusader States* Andrew Jotischky, 2017-02-17 *Crusading and the Crusader States* explores how the idea of holy war emerged from the troubled society of the eleventh century and why Jerusalem and the Holy Land were so important to Europeans. It follows the progress of the major crusading expeditions offering insights into initial success and subsequent failure, charts the development of new attitudes towards Islam and its followers and shows the effects of the Crusades on society and culture in the Near East. Providing analysis and discussion of this vital period of medieval history, Andrew Jotischky discusses key questions such as how crusading evolved in theory and practice, how crusading expeditions were planned and carried out, why they were considered such an essential part of medieval society and why their popularity endured despite military failures. This new edition takes into account the wealth of rich and varied recent research to show why crusading should be seen as central to the European experience in the Middle Ages. It engages with key historiographical debates of the past decade including how Crusades were formed, the political culture and social networks of crusading and the effects of crusading on western religious and aristocratic culture. It now extends into the fifteenth century to discuss the lasting ramifications of the Crusades and illustrate their legacy into the early modern period. It is essential reading for all students of the Crusades and medieval history.

Latins, Greeks and Muslims: Encounters in the Eastern Mediterranean, 10th-15th Centuries David Jacoby, 2023-05-31 Trade, shipping, military conquest, migration and settlement in the eastern Mediterranean of the 10th-15th centuries generated multiple encounters between states, social and national groups and individuals belonging to Latin Christianity, Byzantium and the Islamic world. The nature of these encounters varied widely depending on whether they were the result of cooperation, rivalry or clashes between states, the outcome of Latin conquest which altered the social and legal status of indigenous subjects or the result of economic activity. They had wide-ranging social and economic repercussions and shaped both individual and collective perceptions and attitudes. These often differed depending upon nationality, standing within the dominant or subject social strata or purely economic considerations. In any event, at the individual level, common economic interests transcended collective national and cultural boundaries, except in times of crisis. The studies in this latest collection by David Jacoby explore the multiple facets of these eastern Mediterranean encounters and their impact upon individual economic activities, with special attention to the other outsiders in foreign environments: foreign privileged versus indigenous traders, the link between governmental intervention, naturalization and fiscal status, as well as the interaction between markets and peasants.

[History of the Decline and Fall of the Roman Empire V 6](#) Edward Gibbon, 2015-12-03 The great work of Gibbon is indispensable to the student of history. The literature of Europe offers no substitute for *The Decline and Fall of the Roman Empire*. It has obtained undisputed possession as rightful occupant of the vast period which it comprehends. However, some subjects which it embraces may have undergone more complete
