Corruption, Protection and Justice in Medieval Europe

Jonathan R. Lyon, 2022-11-24 What was an advocate Latin advocatus German Vogt in the middle ages What responsibilities came with the position and how did they change over time With this ground breaking study Jonathan R Lyon challenges the standard narrative of a medieval Europe of feudalism and lordship being replaced by a modern Europe of government bureaucracy and the state By focusing on the position of advocate he argues for continuity in corrupt practices of justice and protection between 750 and 1800 This book traces the development of the role of church advocate from the Carolingian Period onwards and explains why this position became associated with the violent abuse of power on churches estates When other types of advocates became common in and around Germany after 1250 including territorial and urban advocates they were not officeholders in developing bureaucracies Instead they used similar practices to church advocates to profit illicitly from their positions calling into question scholarly arguments about the decline of violent lordship and the rise of governmental accountability in European history

Debating medieval Europe

Stephen Mossman, 2025-06-24 Debating medieval Europe serves as an entry point for studying and teaching medieval history Rather than simply presenting foundational knowledge or

introducing sources it provides the reader with frameworks for understanding the distinctive historiography of the period digging beneath the historical accounts provided by other textbooks to expose the contested foundations of apparently settled narratives This second volume addresses the central and later Middle Ages covering the period c 1050 c 1450 The chapters cover such topics as the papacy the Empire and the German lands the British Isles the Crusades and the Latin East and incorporates the very latest epidemiological research in its presentation of the Black Death It features a highly distinguished selection of medieval historians including Graham Loud Amy Livingstone and Len Scales Meanings and Functions of the Ruler's Image in the Mediterranean World (11th – 15th Centuries) ,2022-01-31 The open access version of this book has been published with the support of the Swiss National Science Foundation The book proposes a reassessment of royal portraiture and its function in the Middle Ages via a comparative analysis of works from different areas of the Mediterranean world where images are seen as only one outcome of wider and multifarious strategies for the public mise en scene of the rulers bodies Its emphasis is on the ways in which medieval monarchs in different areas of the Mediterranean constructed their outward appearance and communicated it by means of a variety of rituals object types and media Contributors are Michele Bacci Nicolas Bock Gerardo Boto Varela Branislav Cvetkovi Sofia Fernandez Pozzo Gohar Grigoryan Savary Elodie Leschot Vinni Lucherini Ioanna Rapti Juan Carlos Ruiz Souza Marta Serrano Coll Lucinia Speciale Manuela Studer Karlen Mirko Vagnoni and Edda Vardanyan
