geographically multipolar and multidisciplinary approach to discuss cities in the UK the US India South Africa Finland and France whilst examining a wide range of textual genres from the novel to cartoons advertising copy architecture and urban planning and archaeological writing In the process attention is drawn to narrative complexities embedded within literary fiction and to the dialogue between narratives and historical change The Materiality of Literary Narratives in Urban History has three areas of focus literary fiction as form of urban materiality literary narratives as social investigations of the material city and the narrating of silenced material lives as witnessed in various narrative sources
