everyday life collected systematically from newspapers literature photography personal documents public records and especially extensive interviews with a representative sample of residents born between 1900 and 1930 The book considers the actual customs and experiences of friendship and neighborliness in a German town before during and after the Third Reich By analyzing the customs of conviviality in interwar Hildesheim and the culture of normalcy these customs invoked Bergerson aims to help us better understand how ordinary Germans transformed neighbors into Jews or Aryans
