book provides a comprehensive analysis of the significant growth of sculpture as an artistic form in Europe and America from 1900-1945. Using a clearly defined thematic structure, it identifies key issues and developments throughout this important period in the history of art. Individual chapters cover public sculpture, the monument, the object, image making, the built environment, the figurative ideal, and different materials. These themes broadly reflect the changing cultural and political climate of a turbulent period which included two world wars, each preceded by widespread rising nationalism. The practice of sculpture is considered within the wider artistic context of painting and architecture and the development of international art markets. Auguste Rodin, whose ground-breaking exhibition opened in Paris in 1900, serves as the book's point of departure and as a recurrent point of reference.

The Beribboned Bomb Robert James Belton, 1995. Surrealism was ostensibly directed at the emancipation of the human spirit, but it represented only male aspirations and fantasies until a number of women artists began to redefine its agenda in the later 1930s. This book addresses the former using a thick description of the historically specific circumstances which required the male Surrealists to manufacture a sexual reputation of narcissism and misogyny. These circumstances were determined by hegemonic masculinity, an ideological construct which had little to do with individual masculinities. In male Surrealism, the beribboned bomb signified something both attractive and volatile, a specific instance of the Surrealist principle of convulsive beauty. In hegemonic masculinity, similar devices served as metaphors of the sexuality all men were supposed to possess. The intersection of these two axes produced an imagery of unrepentant violence.

The Dali Legacy Christopher Heath Brown, Jean-Pierre Isbouts, 2021-03-23. This immersive dive into the life and work of Salvador Dali unlocks the secret of this creative genius and reveals for the first time how his erotically charged paintings changed the world of modern art. In turn, beloved and reviled twentieth-century painter, filmmaker, and designer Salvador Dali set Europe and the United States ablaze with his uncompromising genius, sexual sadism, and flirtations with megalomania. His shocking behavior and work frequently alienated critics; his views were so outrageous even prominent Surrealists tried to ostracize him. Still, every morning he experienced an exquisite joy, the joy of being Salvador Dalí, and because of his remarkable talent, Dali rose to unprecedented levels of fame, forever shifting the landscape of the art world and the nature of celebrity itself. In this stunning volume, rich with more than 150 full-color images, noted art historians Jean-Pierre Isbouts and Christopher Heath Brown discuss the historical, social, and political conditions that shaped Dali's work, identify the impact of modern as well as old master art, and present an unflinching view of the master's personal relationships and motivations. With their deeply compelling narrative, Isbouts and Brown uncover how Dalí's visual wit and enduring cult of personality still impacts fashion, literature, and art, from Andy Warhol to Lady Gaga, and answer why, in an age of shock and awe, Dali's art still manages to distress, perplex, and entertain. An unparalleled guide to Dali and a critical resource for anyone keen to understand the development of modern art, *The Dali Legacy* is complemented by a contextualizing foreword from Frank Hunter, director of the Salvador Dali Archives.
