and in this engaging account J rg Matthias Determann provides a survey of Arabic Bengali Malay Persian Turkish and Urdu texts and films to show how scientists and artists in and from Muslim majority countries have been at the forefront of the exciting search Determann takes us to little known dimensions of Muslim culture and religion such as wildly popular adaptations of Star Wars and mysterious movements centred on UFOs Repression is shown to have helped science fiction more than hurt it with censorship encouraging authors to disguise criticism of contemporary politics by setting plots in future times and on distant planets The book will be insightful for anyone looking to explore the science culture and politics of the Muslim world and asks what the discovery of extra terrestrial life would mean for one of the greatest faiths Is Earth Exceptional? Dr. Mario Livio, Dr. Jack Szostak, 2024-09-10 A New York Times bestselling astrophysicist and a Nobel laureate describe the quest to discover how and where the universe breathed life into matter For a long time scientists have wondered how life has emerged from inanimate chemistry and whether Earth is the only place where it exists Charles Darwin speculated about life on Earth beginning in a warm little pond Some of his contemporaries believed that life existed on Mars It once seemed inevitable that the truth would be known by now It is not For more than a century the origins and extent of life have remained shrouded in mystery But as Mario Livio and Jack Szostak reveal in *Is Earth Exceptional* the veil is finally lifting The authors describe how life s building blocks from RNA to amino acids and cells could have emerged from the chaos of Earth s early existence They then apply the knowledge gathered from cutting edge research across the sciences to the search for life in the cosmos both life as we know it and life as we don t Why and where life exists are two of the biggest unsolved problems in science *Is Earth Exceptional* is the ultimate exploration of the question of whether life is a freak accident or a chemical imperative *Beneficial Instructions Before Leaving Earth* Jawara D.
