The Later Diaries of Ned Rorem, 1961-1972 Ned Rorem, 2013-06-18

The esteemed American composer and unabashed diarist Ned Rorem provides a fascinating brazenly intimate first person account of his life and career during one of the most extraordinary decades of the twentieth century

Ned Rorem is often considered an American treasure one of the greatest contemporary composers in the US

In 1966 he revealed another side of his remarkable talent when *The Paris Diary* was published and a year later *The New York Diary* both to wide critical acclaim

In *The Later Diaries* Rorem continues to explore his world and his music in intimate journal form covering the years 1961 to 1972 one of his most artistically productive decades

The Ned Rorem revealed in *The Later Diaries* is somewhat more mature and worldly than the young artist of the earlier works but no less candid or daring as he reflects on his astonishing life loves friendships and rivalries during an epoch of staggering sometimes volatile change

Writing with intelligence insight and honesty he recalls time spent with some of the most famous and infamous artists of the era Philip Roth Christopher Isherwood Tallulah Bankhead and Edward Albee among others openly exploring his sexuality and his art while offering fascinating sometimes blistering views on the art of his contemporaries

The Atlantic Provinces in Confederation Ernest R. Forbes, Delphin A. Muise, 1993-12-15

Canada's four easternmost provinces while richly diverse in character and history share many elements of their political and economic experience within Confederation

In this volume thirteen leading historians explore the shifting tides of Atlantic Canada's history beginning with the union of Nova Scotia and New Brunswick with Ontario and Quebec to form the Dominion in 1867

Continuing on through Prince Edward Island's entry into Confederation six years later and Newfoundland's in 1949 they take the story of Atlantic Canada up to the 1980s

Collectively their work sheds light on the complex political dynamic between the region and Ottawa and reveals the roots of current social and economic realities

Fragmentation versus integration plenty versus scarcity centre versus periphery and other models inform their analysis

The development of regional disparity and responses to it form a major theme

The tradition of regional protest by Maritimers and later Atlantic Canadians runs deep so does their commitment to the idea of an integrated Canadian nation

Protests over the decades have primarily been expressions of frustration at perceived exclusion from the full benefits of national union

The creation of national markets for labour capital and goods often operated to their detriment and political decisions at the national level frequently reinforced rather than alleviated the regional predicament

More than an account of the wealthy and powerful this book often places ordinary men and women at the centre of the story

Above all it reveals the resilience of Atlantic Canadians as they have struggled to overcome their problems and to share in the benefits of life in the Canadian community

Descriptions of Seven New Fresh-Water Fishes from Peru: Notulae Naturae of The Acad. of Natural Sciences of Phila., No. 159, *The Garland Encyclopedia of World Music* Ellen Koskoff, 2017-09-25
