A Military History of the Cold War, 1944-1962 Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

From People's War to People's Rule Timothy J. Lomperis,2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself Rather he proposes a comparison of the Vietnam experience with seven other cases of Western intervention in communist insurgencies during the Cold War era China Indochina Greece the Philippines Malaya Cambodia and Laos Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization Therefore he argues any intervention in a people s war will succeed or fail depending on how it affects this crisis The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements Applying this theory to the ongoing Sendero Luminoso insurgency in Peru Lomperis makes a qualified prediction of that conflict s outcome He concludes that a global trend toward democratization has produced a new era of people s rule
