Modernism and Subjectivity Adam Meehan,2020-06-03 In *Modernism and Subjectivity* How Modernist Fiction Invented the Postmodern Subject Adam Meehan argues that theories of subjectivity coming out of psychoanalytic poststructuralist and adjacent late twentieth century intellectual traditions had already been articulated in modernist fiction before 1945 Offering a bold new genealogy for literary modernism Meehan finds versions of a postmodern subject embodied in works by authors who intently undermine attempts to stabilize conceptions of identity and who draw attention to the role of language in shaping conceptions of the self Focusing on the philosophical registers of literary texts Meehan traces the development of modernist attitudes toward subjectivity particularly in relation to issues of ideology spatiality and violence His analysis explores a selection of works published between 1904 and 1941 beginning with Joseph Conrad s prescient portrait of the subject

interpolated by ideology and culminating with Samuel Beckett's categorical disavowal of the subjective I. Additional close readings of novels by F. Scott Fitzgerald, Aldous Huxley, James Joyce, Nathanael West, and Virginia Woolf establish that modernist texts conceptualize subjectivity as an ideological and linguistic construction that reverberates across understandings of consciousness, race, place, and identity. By reconsidering the movement's function and scope, *Modernism and Subjectivity* charts how profoundly modernist literature shaped the intellectual climate of the twentieth century.

Signs of the Signs William Brevda, 2011-05-16 This book is a study of signs in American literature and culture. It is mainly about electric signs but also deals with non-electric signs and related phenomena such as movie sets. The sign is considered in both the architectural and semiotic senses of the word. It is argued that the drama and spectacle of the electric sign called attention to the semiotic implications of the sign. In fiction, poetry, and commentary, the electric sign became a sign of manifold meanings that this book explores: a sign of the city, a sign of America, a sign of the twentieth century, a sign of modernism, a sign of postmodernism, a sign of noir, a sign of naturalism, a sign of the beats, a sign of signs systems, the Bible to Broadway, a sign of tropes, the Great White way to the neon jungle, a sign of the writers themselves, a sign of the sign itself. If *Moby Dick* is the great American novel, then it is also the great American novel about signs, as the prologue maintains. The chapters that follow demonstrate that the sign is indeed a sign of American literature. After the electric sign was invented, it influenced Stephen Crane to become a nightlight impressionist and Theodore Dreiser to make the fire sign his metaphor for the city. An actual Broadway sign might have inspired F. Scott Fitzgerald's *The Great Gatsby*. In *Manhattan Transfer* and *U.S.A.*, John Dos Passos portrayed America as just a spectacular sign. William Faulkner's electric signs are full of sound and fury, signifying modernity. *The Last Tycoon* was a sign of Fitzgerald's decline. The signs of noir can be traced to Poe's *The Man of the Crowd*. Absence flickers in the neons of Raymond Chandler's *Los Angeles*. The death of God haunts the neon wilderness of Nelson Algren. Hitler's empire was an non-intentional parody of Nathanael West's *California*. The beats reinvented Times Square in their own image. Jack Kerouac's search for the center of Saturday night was a quest for transcendence.

was about responding to structural economic and social requirements characteristic of our daily routine of living. He sought to ensure that each design he produced, whether a piece of furniture or a building or an interior, was an improvement that responded to modern needs and modern life. Weber was a leading figure of modernism on the West Coast from the 1920s through the early 1950s, and his work greatly influenced the California style of the time. His most iconic designs were his Bentlock line, the Air Line chair, the interiors for the Bixby House, and his tubular steel furniture for Lloyd. This book, a result of significant new primary research in the Weber family's archives, represents the first major study of the life and career of this important designer. Christopher Long details the full range of Weber's contributions, focusing particularly on the part he played in the advancement of American modernism and his role in heralding a new way of making and living.
