the Earth's future. Although for a great many people the human impact on the Earth, countless species becoming extinct, pandemics claiming millions of lives, and climate crisis causing worldwide social and environmental upheaval was not apparent until recently, this is not the case for all people or cultures. For the Indigenous people of the world, radical alteration of the planet and of life itself is a story that is many generations long. They have had to adapt, to persevere, and to be courageous and resourceful in the face of genocide and destruction, and their experience has given them a unique understanding of civilizational devastation.

An American Library Association Notable Book, *We Are the Middle of Forever* places Indigenous voices at the center of conversations about today's environmental crisis. The book draws on interviews with people from different North American Indigenous cultures and communities, generations, and geographic regions who share their knowledge and experience, their questions, their observations, and their dreams of maintaining the best relationship possible to all of life. A welcome antidote to the despair arising from the climate crisis, *We Are the Middle of Forever* will be an indispensable aid to those looking for new and different ideas and responses to the challenges we face.

Plato's Theaetetus as a Second Apology Zina Giannopoulou, 2013-06-27

Zina Giannopoulou argues that *Theaetetus*, Plato's most systematic examination of knowledge, is a philosophically sophisticated elaboration of *Apology* that successfully differentiates Socrates from the sophists. In *Apology*, Socrates defends his philosophical activity partly by distinguishing it from sophistic practices, and in *Theaetetus* he enacts this distinction: the self-proclaimed ignorant and pious Socrates of *Apology* poses as the barren practitioner of midwifery, an art that enjoys divine support and helps his pregnant interlocutor engender his ideas. Whereas sophistic expertise fills others' souls with items of dubious epistemic quality, Socratic midwifery removes tests and discards falsities. In *Theaetetus*, Plato drapes the Socrates of *Apology* with obstetric garb and stages a philosophical contest between him and the seemingly wise men with whose definitions *Theaetetus*'s soul teems. Chief among whom is Protagoras. By proving the indefensibility of these definitions, Socrates challenges their authors' wisdom, since for him no one can justifiably be said to have knowledge if he cannot give an account of knowledge. On the other hand, his own inability to procure the definition he seeks confirms his assertion that he lacks wisdom. Giannopoulou goes on to explore how in *Apology* Socrates claims that his wisdom consists in his awareness of his lack of wisdom, and in *Theaetetus* he validates this claim: his attempt to discover what knowledge is coupled with his intellectual barrenness shows both that he does not have what he is looking for and why this is the case.
