Lost Empire On The Nile H M Stanley Emin:

Lost Empire on the Nile Stanhope White, 1969 Imperialism and the Anti-Imperialist Mind Lewis Samuel Feuer, 1989-01-01 In this major work Lewis S Feuer examines critical distinctions between progressive and regressive imperialism He explores causes of anti imperial ideologies noting that unlike the spoliation that took place under regressive tartar Spanish and Nazi colonizations civilization flourished during the progressive imperialism of Hellenic Macedonian Roman and modern British eras of empire building Feuer holds that it is erroneous to blame the relative backwardness of colonial peoples on the imperialism of Western democratic nations In case after case the character of colonial rulers determined economic development and democratic reform alike Pursuing the theme of progress versus regression Feuer compares the imperialism of the United States with that of the Soviet Union to the detriment of the latter in nearly every instance His effort constitutes nothing short of a fundamentally new perspective on the lessons of modern history and the mistakes of modern analysts of international affairs Feuer opens as well a new chapter in political psychology with his study of such anti imperialist intellectuals as Hobson Morel and Leonard Woolf his portrait of Emin Pasha the heroic Jewish governor of Equatorial Sudan suggests a living model for Conrad s Lord Jim *The Last Expedition* Daniel Liebowitz, Charles Pearson, 2005 Henry Morton Stanley undertook the greatest African expedition of the 19th century to rescue Emin Pasha last lieutenant of the martyred General Gordon and governor of the southern Sudan Instead of ten months the trip took three years and cost the lives of thousands of people as Stanley s column hacked its way across the last great unexplored territory in Africa Stanley s secret agenda was territorial expansion on the model of Leopold s Congo or the British East India Company Civil Wars and Revolution in the Sudan Robert O. Collins, 2005 This is a collection of twenty essays written over forty years between 1962 and 2004 on the Sudan southern Sudan and Darfur Four decades of civil war has cost more than two million dead and another six million refugees and Internally Displaced Persons Now after a decade of ambivalent and frustrating negotiations a peace agreement between the Sudan People s Liberation Movement and the Government of the Sudan has finally been signed on 9 January 2005 leaving in its wake a devastated southern Sudan its infrastructure completely destroyed its fragile economy in ruins and its people exhausted after nearly half a century of fierce fighting Although these twenty essays include such topics as nation building the dynamics of racial ethnic cultural and religious identity the politics of oil and the legacy of slavery most of them are concerned with conflict in the Sudan its participants and the reasons why and it began and has continued for so long These essays are presented here in chronological order the aggregate becomes a unique history of the Sudan s terrible civil war that cannot be found elsewhere the independent Sudan are woven into the text of each revealing new insights into the history of these tumultuous decades Imperial Footprints James L. Newman, 2004 Dr Livingstone I presume The man who uttered those famous words was compared with Christopher Columbus in his day and became one of the late nineteenth century s most newsworthy figures

Yet one hundred years after Henry Morton Stanley's death his accomplishments in Africa have largely receded from public memory or have been discredited as epitomizing the wrongs inflicted by the scourge of European colonialism and its scramble for Africa. While numerous writers have attempted to describe the man sometimes through highly speculative means our understanding of the most notable aspect of Stanley's life his relationship to the continent isn't much more advanced than it was one hundred years ago. To fill this void James L. Newman re-creates Stanley's seven epic African journeys explaining why he made them what transpired en route and what resulted. He highlights Stanley's determination to succeed despite incredible odds and his various relationships with the people who enabled him to accomplish his objectives. And while he acknowledges Stanley's less admirable traits such as his penchant for stretching the truth his capacity to be ruthless and his tendency to demean others Newman refuses to engage in facile speculation. Instead he focuses on the words and deeds of a man who played a major role in shaping today's Africa. James L. Newman's in-depth research detailed descriptions and vivid prose make Stanley and Africa both a fascinating read and a notable contribution to the study of Africa exploration and the age of empire.
