used or enhanced in memory lives lost from terrorists attacks of September 11 2001 Reports the results of a national registry that serves as an online inventory of living memorial sites and social motivations Through the first year of research more than 200 living memorials were located in every state in the U S This publication includes findings associated with research conducted in the first year of the multi year study One of the findings was that after September 11 2001 communities needed space space to create space to teach space to restore space to create a locus of control These social motivations formed the basis of patterned human responses observed throughout the nation A site typology emerged adhering to specific forms and functions that often reflected a variance in attitudes beliefs and social networks Climate Change Impacts on Freshwater Ecosystems Martin Kernan, Richard W. Battarbee, Brian R. Moss, 2011-02-14 This text examines the impact of climate change on freshwater ecosystems past present and future It especially considers the interactions between climate change and other

drivers of change including hydromorphological modification nutrient loading acid deposition and contamination by toxic substances using evidence from palaeolimnology time series analysis space for time substitution laboratory and field experiments and process modelling The book evaluates these processes in relation to extreme events seasonal changes in ecosystems trends over decadal scale time periods mitigation strategies and ecosystem recovery The book is also concerned with how aspects of hydrophysical hydrochemical and ecological change can be used as early indicators of climate change in aquatic ecosystems and it addresses the implications of future climate change for freshwater ecosystem management at the catchment scale This is an ideal book for the scientific research community but is also accessible to Masters and senior undergraduate students

Thriving in the Face of Mortality Daniel B. Hinshaw,2023-01-27 Kenosis a Greek word meaning depletion or emptying and a concept borrowed from Christian theology has deeply profound implications for understanding and ordering life in a world marked by suffering and death Whereas the divine kenosis was voluntary human beings experience an involuntary kenosis which is characterized by the inevitable losses experienced during the lives of mortal creatures How one chooses voluntarily to respond to this involuntary kenosis regardless of faith commitments in effect defines us both in our relationships with other suffering creatures and with the entire cosmos This book offers a unique perspective on how the losses of involuntary kenosis choreograph the suffering which is such a defining aspect of the lives of persons communities and the environment in which they live and how the kenotic process rather than being a source of despair can be a source of hope presenting opportunities for extraordinary personal growth

From Small Screen to Vinyl Bob Leszczak, 2015-06-25 From its infancy television networks and studios explore others avenues to increase their revenues Conveniently enough several film studios and production companies MGM MTM Columbia Screen Gems Talent Associates Warner Brothers had their own record label divisions The obvious benefit was cross promotion a television series could be plugged on the record and the record could be promoted on the TV show Though few and far between several television performers went on to become major recording stars Ricky Nelson started as a child actor on The Adventures of Ozzie and Harriet before dominating rock and pop charts Johnny Crawford of The Rifleman Walter Brennan of The Real McCoys and even Bruce Willis of Moonlighting all scored Top Ten hit singles But these were just the standouts from the hundreds of TV actors who recorded songs and the stories behind their records are simply fascinating In **From Small Screen to Vinyl A Guide to TV Stars Who Made Records 1950 2000** author Bob Leszczak offers a look at hundreds of stars who performed double duty as a television performer as well as a recording artist He looks not only at the show and the performer but the behind the scenes dramas that unfolded as each attempted to tackle the two different mediums Through his interviews with many of these multitaskers the author has uncovered new and mostly never before known facts about those who sought to conquer the world of vinyl As Leszczak stresses most eagerly embraced the opportunity to record while others saw it as a necessary evil the result of contractual obligations or industry pressures Entries are listed alphabetically from Nick Adams of The Rebel to Efrem Zimbalist Jr of 77 Sunset Strip Also included are over 80 photos of these rare releases taken from the author s private collection For a new look at your old favorites From Small Screen to Vinyl will let you see that just because one is a TV star does not mean that he or she does not have the ability to expand beyond their acting prowess Baby boomers fans of classic hits radio and devotees of classic TV programs will find From Small Screen to Vinyl a treasure trove of TV and record trivia and no TV or music library can be considered complete without it

The Issue of Time and Dissolution Frank Darwiche, 2000-09 This is an excellent many layered lyrical

exploration of the ontological issues that time history and selfhood elicit **Warships of the Soviet Fleets 1939-1945**
Przemyslaw Budzbon, Jan Radziemski, Marek Twardowski, 2022-12-12 Seventy five years after the end of the Second World War the details of Soviet ships their activities and fates remain an enigma to the West In wartime such information was classified and after a brief period of glasnost openness the Russian state has again restricted access to historical archives Therefore the value and originality of this work is difficult to exaggerate It sees the first publication of reliable data on both the seagoing fleets and riverine flotillas of the Soviet Navy listing over 6200 vessels from battleships to river gunboats and mercantile conversions as well as purpose built warships This second part of the three volume series includes all the remaining fighting vessels not already covered in Volume I Beginning with the Uragan class rated as Escort Ships and the first seagoing warships designed by the Soviet Union the book then moves on to Submarine Hunters both large and small Patrol craft Minelayers and Minesweepers and unusual types like Floating Artillery Batteries and Anti Aircraft Defense Ships concluding with Landing Ships and Craft Many of these vessels have hitherto been poorly documented but given the nature of the land centered Soviet war against Germany their contribution should not be underestimated The details of their service and not least the circumstances of their loss constitute a major addition to Western understanding of the Soviet Navy s war effort This is undoubtedly one of the most important naval reference works of recent years and will be welcomed by anyone with an interest in warships the Soviet Navy or wider maritime aspects of the Second World War Furthermore as recent Russian actions appear to revive Soviet era aspirations this book offers both new insights and valuable background of contemporary relevance *Congressional Record* United States. Congress, 1984
