Lost Daughters Recovered Memory Therapy And The People It Hurts

Judy L. Postmus

Lost Daughters Recovered Memory Therapy And The People It Hurts:

Lost Daughters Reinder Van Til, 1997 *Lost Daughters* movingly depicts the human toll exacted by the widespread belief in Recovered Memory Therapy. It portrays families devastated by daughters' RMT-inspired memories of childhood sexual abuse and their accusations against parents.

Counseling and the Therapeutic State James J. Chriss, *The Quest for the Inner Human* Steven H. Propp, 2013-12-03 Psychology means the study of the soul; it is the social science concerned with investigating who we are, why we have certain feelings, and why we do the things we do. Are we no more than a vast assembly of nerve cells and their associated molecules? Is biology our genetic inheritance, destiny, or does social upbringing play a crucial role? What are the roles played by Nature and by Nurture? Are we purely physical beings, or is there an aspect that can be called spiritual? This thought-provoking novel takes you on a journey of intellectual and emotional exploration, considering along the way questions that we've all asked ourselves, such as: Is it true that we only use 10% of our brains? Does playing classical music for infants increase their intelligence? Do crime rates go up during a full moon? Can hypnosis or post-hypnotic suggestions make us do something we wouldn't normally do? Does subliminal advertising influence us to buy products? Are our memories stored indelibly, almost like a tape recorder? What causes memory lapses as we age? Can repressed traumatic memories be recovered through hypnosis? Do some people have multiple personalities? How can I tell if someone has a neurosis or a psychosis? Do men have an inner feminine side, and women an inner masculine? Are there innate psychological differences between males and females? The four main characters in this book will guide you through a diverse and sometimes bewildering world of differing approaches to answering such questions, such as Freudian, Jungian, and Adlerian, Humanistic, Existential, and Transpersonal, as well as Cognitive, Emotive, and Behaviorist. Along the way, you will learn about the developmental stages proposed by psychologists such as Erikson, Kohlberg, Piaget, and Fowler, and even explore some of the questions currently being asked by both neuroscientists and philosophers of the mind. Start reading to begin your study of our innermost selves.

The Repressed Memory Epidemic Mark Pendergrast, 2017-10-13 This book offers a comprehensive overview of the concept of repressed memories. It provides a history and context that documents key events that have had an effect on the way that modern psychology and psychotherapy have developed. Chapters provide an overview of how human memory functions and works, and examine facets of the misguided theories behind repressed memory. The book also examines the science of the brain, the reconstructive nature of human memory, and studies of suggestibility. It traces the present-day resurgence of a belief in repressed memories in the general public as well as among many clinical psychologists, psychiatrists, social workers, body workers, and others who offer counseling. It concludes with legal and professional recommendations and advice for individuals who deal with or have dealt with the psychotherapeutic practice of repressed memory therapy. Topics featured in this text include: The modern diagnosis of Dissociative Identity Disorder (DID), once called MPD; The Satanic Panic of the 1980s and its relation to repressed memory therapy; The McMartin Preschool Case.

and the Day Care Sex Panic A historical overview from the Great Witch Craze to Sigmund Freud's theories spanning the 16th to 19th centuries An exploration of the cultural context that produced the repressed memory epidemic of the 1990s The repressed memory movement as a religious sect or cult The Repressed Memory Epidemic will be of interest to researchers and clinicians as well as undergraduate and graduate students in the fields of psychology sociology cultural studies religion and anthropology

Now I Can See The Moon Alice Tallmadge, 2025-07-30 In the 1980s and 1990s a mind boggling social panic over child sex abuse swept through the country landing childcare workers in prison and leading hundreds of women to begin recalling episodes of satanic ritual abuse and childhood abuse by family members Now I Can See the Moon A Story of a Social Panic False Memories and a Life Cut Short is a deeply personal account of the devastating impact the panic had on one family In trying to understand the suicide of her twenty three year old niece a victim of the panic the author discovers that what she thought was an isolated tragedy was in fact part of a much larger social phenomenon that sucked in individuals from all walks of life convincing them to believe the unbelievable and embrace the most aberrant claims as truth Sexual Violence and Abuse Judy L. Postmus, 2012-12-12 A comprehensive examination of the pervasive and persistent social problem of sexual violence and abuse that plagues millions of women children and men across the globe Sexual Violence and Abuse An Encyclopedia of Prevention Impacts and Recovery coalesces the vast amount of information available on the subject providing a convenient and comprehensive resource on sexual violence and abuse for students practitioners and general readers It is the first of its kind to bring together a full range of topics on sexual violence and abuse across a human lifespan in a single work The entries are written by a range of professionals who represent academics researchers and individuals working in the field of sexual violence and abuse The two volume work contains 264 fully cross referenced entries in alphabetical order starting with abortion and ending with yoga therapy The bibliography provides important books articles online resources and videos on a wide range of topics The encyclopedia also includes a list of key topics with corresponding entries to assist readers needing to examine a group of related entries *Denied! Failing Cordelia* Simon Cambridge, 2014-08-30 The Cankered Rose and Esther's Revenge begins the author's dramatic journey of adopting his teenage daughter with severe attachment issues in Seattle The heartbreak of then seeing Cordelia stolen by the efforts of his former wife and the child welfare legal complex in Los Angeles alongside that of the trauma of being denied during efforts to reunify with her are each foreshadowed here Issues surrounding adoption trauma parenting children with reactive attachment disorder and the author's own struggles with Asperger's syndrome will be his constant companions on this perilous journey of adopting losing and then trying to reunite with his beloved daughter In this and subsequent volumes the author will also be questioning the ability of the child welfare legal complex and the Los Angeles Juvenile Dependency Court to understand the nature of damaged child attachment or the therapeutic parenting needed to heal children with special needs Ultimately each would be as responsible for failing Cordelia as the breaking of the violent waves for the shattering

movement of the rocks on the beach **False memories of sexual abuse: the underestimated danger** Hans Delfs, 2024-07-25 Memories change over time because they are constantly being reconstructed This can also result in memories of experiences that never existed The way the brain works does not differentiate between real and imagined content Pseudo memories arise particularly easily in psychotherapy through suggestive speculation about traumas suffered such as sexual abuse Those undergoing therapy are firmly convinced of the reality of these false memories They suffer just as much as those who were really abused They blame innocent people Families are destroyed livelihoods are threatened and there are only losers It gets particularly bad when conspiracy theories of ritual abuse and victim programming are involved

Cognition Robert W. Weisberg, Laretta M. Reeves, 2013-02-07 From memory to creativity a complete and current presentation of the field of cognition The process of cognition allows us to function in life it translates inputs from the world so we can recognize the sound of the alarm clock remember the day of the week and decide which clothes to wear *Cognition From Memory to Creativity* provides readers with a clear research based and well illustrated presentation of the field starting with memory the most accessible starting point to more complex functions and research in information processing Authors Robert Weisberg and Laretta Reeves include the newest neurological findings that help us understand the human processes that allow for cognition Unique in its organization *Cognition* incorporates both classical and modern research and provides demonstration experiments for students to conduct with simple materials *Cognition* explores Models of memory and memory systems Encoding and retrieval Forgetting vs false memory Visual cognition Attention and imagery Sounds words and meaning Logical thinking and decision making Problem solving and creative thinking **Mike Kelley** John

Miller, 2015-01-30 An illustrated examination of a 1995 work by Mike Kelley that marked a significant change in his work One of the most influential artists of our time Mike Kelley 1954 2012 produced a body of innovative work mining American popular culture as well as modernist and postmodernist art relentless examinations of subjectivity and of society that are both sinister and ecstatic With a wide range of media Kelley s work explores themes as varied as post punk politics religious systems social class and repressed memory Using architectural models to represent schools he attended his 1995 work *Educational Complex* presents forgotten spaces as frames for private trauma real or imagined The work s implications are at once miniature and massive In this book John Miller offers an illustrated examination of this milestone work that marked a significant change in Kelley s practice A complex can mean an architectural configuration a psychological syndrome or a political apparatus and Miller approaches *Educational Complex* through corresponding lines of inquiry considering the making of the work examining it in terms of education and trauma sexual or otherwise and investigating how it tests the ideological horizon of art as an institution Miller shows that in *Educational Complex* Kelley expands his political and aesthetic focus including not only such artifacts as generic forms of architecture but inspired by the infamous McMartin Preschool case popular fantasies associated with ritual sex abuse and false memory syndrome Through this archaeology of the

contemporary Miller argues Kelley examines the mandate for education and the liberal democratic premises underpinning it

Denied! Failing Cordelia: Parental Love and Parental-State Theft in Los Angeles Juvenile Dependency Court

Simon Cambridge, 2019-09-17 Climbing the Broken Judicial Ladder continues the author's journey of exploring the heartbreak and loss of first adopting Cordelia with severe reactive attachment disorder RAD in Washington state and then of nearly losing her to the draconian and confused child welfare legal complex in Los Angeles In this third volume of his Denied Failing Cordelia trilogy Cambridge climbs the broken California judicial ladder from the California Court of Appeals Second Appellate District based in Los Angeles to the California Supreme Court Cambridge concludes that in appeals relating to dependency cases the ladder is broken for parents seeking to advocate for themselves and for the true best interests of their children Policies relating to child welfare are flawed Cambridge argues because of the preemptive and prejudicial response to the issues raised during the detention of children As with his two earlier books Cambridge explores issues connected with how best to parent his adopted daughter and advocate for her needs in the context of a dependency case Cordelia's reactive attachment disorder would surface throughout the judicial struggle as would the author's own struggles with Asperger syndrome Each would feed negatively into the overall trauma and drama of the author's unrelenting quest to reunite his forever family Cambridge believes that dependency proceedings are ill equipped on many levels to elicit a proper understanding of RAD or of the therapeutic parenting needed to address it Cambridge believes that adoptive parents of children with special needs need to be understood by more sympathetic social workers and by therapists trained in attachment disorders Cambridge's persistent efforts to reunite his forever family would leave him increasingly isolated as he climbs the judicial ladder Based on his experiences Cambridge explores areas for reform in Los Angeles dependency proceedings and evokes Shakespeare's King Lear by arguing that social workers need to see better and that the Los Angeles Juvenile Dependency Court needs to encourage a broader understanding of the issues raised through more effective legal advocacy from assigned dependency lawyers Cambridge argues that parents should be allowed to address the court directly Cambridge also relates how he and his daughter have found many positive and healthy ways to heal in the years since their dependency case ended Much trauma could have been avoided if those around them had seen better and had recognized the value in their dramatic and loving adoption journey

A Delicate Choreography David Sabeau, 2023-10-24 The origins of the incest taboo have puzzled many of the most influential minds of the West from Plutarch to St Augustine St Thomas Aquinas Martin Luther David Hume Lewis Henry Morgan Sigmund Freud Emile Durkheim Edward Westermarck and Claude Lévi Strauss This book puts the discussion of incest on a new foundation It is the first attempt to thoroughly examine the rich literature from philosophical theological and legal treatises to psychological and biological genetic studies to a wide variety of popular cultural media over a long period of time The book offers a detailed examination of discursive and figurative representations of incest during five selected periods from 1600 to the present The incest discussion for each period is

complemented with a presentation of dominant kinship structures and changes without arguing for causal relations Part I deals with the legacy of ecclesiastical marriage prohibitions of the Middle Ages Historians dealing with the Reformation have wondered about the political and social implications of theological debates about the incest rules the Enlightenment opted for sociological considerations of the household and a new anthropology based on the passions Baroque discourse focused upon sexual relations among kin by marriage while Enlightenment and Romantic discussions worried the intimacy of siblings The first section of Part II deals with the six decades around 1900 during which European and American cultures obsessed about the sexuality of women Almost everyone concurred in the idea that mother made the family what it was that she configured the household kept the lines of kinship vibrant and stood at the threshold as stern gatekeeper and many thought that she managed these tasks through her sexuality and an eroticized relationship with sons Another story line taken up in the section Intermezzo this one about the physical and mental consequences of inbreeding appeared after 1850 To what extent do close kin marriages pose risks for progeny At its center lay the incest problematic now restated Is avoidance of kin genetically programmed Do all cultures know about risks of consanguinity As for the twenty first century evolutionary and genetic assumptions are challenged by a living world population containing roughly one billion offspring of cousin marriages Part III deals with one of the perhaps most remarkable reconfigurations of Western kinship in the aftermath of World War I The shift from an endogamous to an exogamous alliance system centered on the nuclear family An historical anomaly this family form began to dissolve almost as soon as it came together and in the process shifted the focus of incest concerns to a new pairing father and daughter By the 1970s when the father daughter problematic swept all other considerations of incest aside that relationship had come to be modeled for the most part around power and its abusive potential As for incest its representations in the last three decades of the twentieth century no longer focused on biologically damaged progeny but rather on power abuses in the nuclear family sexual abuse By the mid 1990s Western culture at least partly redirected its gaze away from father and daughter towards siblings especially towards brothers and sisters and the sexual boundaries and erotics of their relationships Correspondingly siblings became a model organism for psychotherapy evolutionary biology and the science of genetics

Scientific Values and Civic Virtues Noretta Koertge, 2005-08-04 This volume of contributed essays a follow up to Noretta Koertge's successful book on the science wars *A House Built on Sand* takes an affirming positive view of the relationship between the values embodied in science and the nature of a civil society It argues that recent attacks on the probity of science undermine the possibility of rational discourse in the political arena While science has traditionally been viewed as incorporating intellectual virtues like honesty and precision of language the contributors to this volume point to additional benefits examining the idea that science can serve as a source of and inspiration for civic virtues in the need to be well informed about the way the world works in tolerating the viewpoints of others and in functioning as a fully global enterprise dedicated to the public good The contributors who include philosophers political scientists physicists biologists

and engineers look at examples of scientific virtues in action and how they might be used as inspirations and practical resources for improving civic society The volume will appeal to a similarly broad audience interested in the relationship between science and society

The Politics of Sexuality Barry M.
