resources especially for Christian minorities Seeking the promise opportunity I came to the United States nearly 30 years ago as a young man As I flew westward on the plane it did not occur to me that I would become a prominent neurosurgeon with a practice in one of the great cities of America Nor did I anticipate that I would ever be in a position to fight for save lives and fight for patients lives protecting them from the specter of financial greed permeates the health care industry This book chronicles my journey in America from my early struggles to get past closed doors to my current practice serving the mission set before me with uncompromising zeal and devotion Eventually I became a prominent American neurosurgeon among the only 4000 active nationwide and the only one nationally and internationally to achieve five board certifications in five acknowledged medical disciplines My story takes the reader through my first hand experiences through the eight health care systems and Chicagos history of neuroscience over the last three decades providing an in depth view of the medical practices in the surrounding suburban communities My book also includes the lessons that I have learned my personal views and patient testimonials What I have faced and seen since my plane landed in this country in 1984 is almost inexpressible It is my sincere wish that others may find hope and inspiration from my story as well as an understanding of the challenges that the healthcare industry faces today along with my own passion for excellence in neuroscience as I confront them I owe my success to God to my cherished parents my teachers my mentors and most importantly my beloved patients My Dreams

Copyright Office, He and Him Claude Britt Jr.,2012-08-16 He and Him is an autobiography dealing with both psychology and archaeology in the author s life He was born during the Great Depression His parents were an Ohio farmerette and a man from the Tennessee mountains who had become an alcoholic on moonshine whiskey It was a dysfunctional family from the start The mom soon developed very serious emotional problems apparently because she wasn t satisfied with the man whom she had married When the author was a six year old boy she told him that she planned to take him and leave his dad However she did the exact opposite and had more kids Upon adding more offspring to the household the author then seven years old became the victim of terrible physical and emotional abuse as well as complete neglect From the age of seven the author had to essentially raise himself He tried to avoid his parents as much as possible by spending his days in the fields and meadows by himself collecting butterflies pretty rocks and looking for prehistoric Indian arrowheads After finding a few Indian arrowheads on farms in Ohio he started a collection of Indian arrowheads and other artifacts at a very young age His collection eventually turned into a very renowned private museum as he got a little older When the author was almost thirteen years old his parents quit farming and started operating their own country store in a different community Chapter 3 in this book describes life in country stores in Ohio during the 1940s and 1950s The author lived in such a country store environment until he turned eighteen and went away to college He was the first of any of his relatives to ever go away to college His mother furnished him money to attend college but he did it completely on his own with absolutely no family encouragement or support to get a degree From the time that the author started getting educated his mom refused to ever call him by his given name She only referred to him as either He or Him Others in the family soon became full of

covetousness towards him because they perceived that he had advantages which they didn't have. Competitive jealousy of others in the household mounted their believing that they had to try to outdo the educated member of the family. A long drawn out bitter family war against the author ensued. Disrespect for the author's higher education continued in later years by not only the third generation but also by in-laws who didn't even know the author when he was in college. After receiving both a BS degree and an MA degree in geology with a master's thesis dealing with archaeology of Archaic Indian sites near his hometown, the author took a temporary summer job as a national park ranger at Canyon de Chelly National Monument at Chinle, Arizona. Canyon de Chelly is located in the center of the vast Navajo Indian Reservation. Getting to live and work in such a beautiful natural area was like a dream come true. That first summer's work at Canyon de Chelly motivated the author to eventually work as a seasonal park ranger in six other national parks and monuments. After working at Canyon de Chelly for one summer, the author ended up going back to Arizona where he lived for ten more years. He married a woman in Kansas who he hardly even knew; then he went to the University of Arizona where he spent two years working towards a PhD degree. After that, he and his wife spent eight more years back on the Navajo Indian Reservation. During those years on the reservation, he taught Navajo Indian children on a substitute teaching certificate. It was a full-time job in the winter. Almost all of his students were Navajo Indians. He taught all grade levels from kindergarten through high school. Chapters 6, 7, and 8 of this book are devoted to stories about life in remote areas of the reservation in the 1960s and 1970s. At that time, the author's doctor and grocery stores were 145 miles from where he lived. There we
