Natasha Vygotskian Dialogues:

Natasha Matthew Lipman, 1996-01-01 *Perspectives on Learning, 5th Edition* Denis Phillips, Jonas F. Soltis, 2015-04-18
Rather than simply outlining the classical and modern theories of learning this widely adopted text brings the material to life through case studies that engage students in debates about what really happens in classrooms Students are encouraged to test the strengths and weaknesses of each theory so that ultimately they will learn to formulate their own philosophies of teaching and learning The new Fifth Edition of *Perspectives on Learning* features A discussion of common sense and learning theories A new chapter on Transfer of Learning Consideration of recent developments in brain science A thoroughly updated list of Recommendations for Further Reading *Perspectives on Learning* is one of the five books in the highly regarded Teachers College Press Thinking About Education Series now in its Fifth Edition All of the books in this series are designed to help pre and in service teachers bridge the gap between theory and practice D C Phillips is Professor of Education and Philosophy Emeritus School of Education at Stanford University Jonas F Soltis is William Heard Kilpatrick Professor Emeritus of Philosophy and Education at Teachers College Columbia University A great little book packed with conceptual contrasts and rich classroom vignettes The best resource I've found for teaching about theories of learning in a liberal arts college Jack Dougherty Trinity College Hartford CT A well written and readable book Phillips and Soltis should be commended for bringing together these various perspectives on learning that can be used by both pre service and in service teachers The case studies presented help illustrate the theories and should facilitate active class discussions The Professional Educator

Philosophy for Children in Transition Nancy Vansieleghem, David Kennedy, 2012-01-17 *Philosophy for Children in Transition* presents a diverse collection of perspectives on the worldwide educational movement of philosophy for children Educators and philosophers establish the relationship between philosophy and the child and clarify the significance of that relationship for teaching and learning today The papers present a diverse range of perspectives problems and tentative prospects concerning the theory and practice of Philosophy for Children today The collection familiarises an actual educational practice that is steadily gaining importance in the field of academic philosophy Opens up discussion on the notion of the relationship between philosophy and the child **Inclusion, Diversity, and Intercultural Dialogue in Young People's Philosophical Inquiry** Ching-Ching Lin, Lavina Sequeira, 2017-07-20 The ever shifting cultural and linguistic landscapes in contemporary societies create new urgency for an intersectional thematic study of diversity philosophy and education As educators how do we transform the vision of cultural and linguistic diversity into a wealth of resources for learning How do we actively engage cultural and linguistic diversities in philosophical inquiry with young people How do we translate the philosophical notion of cultural and linguistic diversity into pedagogical practices The chapters in this book respond to the task of teaching philosophy in the context of increased mobility in the new global reality By complicating the situated and fluid nature of contemporary classrooms this book challenges the normalizing tendency

often associated with philosophy education Each chapter offers a unique perspective in understanding the profound embeddedness of philosophy education in broader sociocultural contexts and prioritizes diversity in the classroom community of inquiry By carefully incorporating a broad range of theoretical perspectives and empirical research this book provides a rich resource for school teachers and educators who wish to engage diverse learners in philosophical inquiry In doing so it reaffirms the value of philosophy education as a proactive approach to democratic education Understanding Silence and Reticence Dat Bao,2014-02-25 What is the state of that which is not spoken This book presents empirical research related to the phenomenon of reticence in the second language classroom connecting current knowledge and theoretical debates in language learning and acquisition Why do language learners remain silent or exhibit reticence In what ways can silence in the language learning classroom be justified To what extent should learners employ or modify silence Do quiet learners work more effectively with quiet or verbal learners Looking at evidence from Australia China Japan Korea and Vietnam the book presents research data on many internal and external forces that influence the silent mode of learning in contemporary education This work gives the reader a chance to reflect more profoundly on cultural ways of learning languages

Philosophy for Children in Confucian Societies Chi-Ming Lam,2019-11-20 This book contributes to the theory and practice of Philosophy for Children P4C with a special emphasis on theoretical and practical issues confronting researchers and practitioners working in contexts that are strongly influenced by Confucian values and norms It includes writings by prominent P4C scholars from four Confucian societies viz Mainland China Hong Kong Taiwan and Japan These writings showcase the diversity of the P4C model providing a platform for researchers and practitioners to tell their stories in their own Confucian cultural contexts The research stories in the first part of the book are concerned with assessing the impact of traditional Confucian norms promoting critical thinking reconstructing the notion of community of inquiry creating moral winds integrating philosophy into the school curriculum and localizing teaching methods and materials Four issues are discussed in the second part of the book the tension between Confucianism and powerful thinking cultural challenges for practitioners the transformation of harmony and the conception of family Taken as a whole the book provides fresh insights into whether and how P4C s Westerninfluenced theories and practices are compromised when they are applied in non Western or rather Confucian contexts A must read for anyone interested in the theory and practice of P4C and Confucianism in general

Intentional Disruption: Expanding Access to Philosophy Stephen Kekoa Miller,2021-09-07 Intentional Disruption Expanding Access to Philosophy is intended for those interested in pre college philosophy the nine contributions within cover a wide array of approaches to bringing philosophy to younger students in a number of new settings The chapters in this book describe programs taking place across the United States some inside school and some in unexpected settings such as camps art museums and nature trails and offer help to those who want to establish or enrich philosophy programs at pre college levels while discussing an underlying philosophy and the challenges the programs have faced At a time when

institutional philosophy is imperiled the programs in this volume point towards new directions being forged to bring the benefits of doing philosophy to more people This volume will be of particular interest to those interested in pre college philosophy and it is intended for philosophy professors graduate students in philosophy or education and philosophy teachers in pre college settings Intentional Disruption Expanding Access to Philosophy will also be helpful to school administrators parents and philosophy camps instructors *Teaching Teachers for a Knowledge Society* R.P. Singh,2008 The book outlines the type of curriculum teachers must undergo to be able to fit into a new set up for countries like India that are gradually emerging from the stupor of colonialism and vying for a space in the sun There are no shortcuts to power particularly when its defining quality lies in the quality of education It could be defined in terms of its teachers Logically therefore we must focus on teacher preparation *Resources in Education* ,1997 *Who Learns What From Cases and How?* Mary A. Lundeberg,Barbara B. Levin,Helen L. Harrington,1999-08-01 Gathers and presents major empirical work done to date on cases and case based pedagogy aims to stimulate continued research and dialogues about case based pedagogy
