Tinhorns Gun Trail Eli Colter, 2014-01-07 PERIL PRESS presents Street Smith's Western Story March 15 1941 TINHORN'S GUN TRIAL by May Eliza Frost as by Eli Colter I'm going after Natchez if I have to trail him clear to hell With those words vowed over his father's dead body Rafe Carlin went out to face a tinhorn whose gun magic was an evil legend 6600 Words

Weapons of Mississippi Kevin Dougherty, 2010-09-30 Mississippians have long found the need for an arsenal of interesting lethal and imaginative weapons Native Americans frontier outlaws antebellum duelists authorities and protestors in the civil rights struggle and present day hunters have used weapons to survive to advance causes or to levy societal control In *Weapons of Mississippi* Kevin Dougherty examines the roles weapons have played in twelve phases of state history Dougherty not only offers technical background for these devices but he also presents a new way of understanding the state's history through the context and development of its weapons Chapters in the book bring the story of Mississippi's weapons up to date with a discussion of the modern naval shipbuilders on the Coast and interviews with hunters keen to pass on family traditions As Mississippi progressed from a sparsely populated wilderness to a structured modern society management of weaponry became one of the main requirements for establishing centralized law and order Indians outlaws runaway slaves secessionists and night riders have all posed challenges to the often better armed authorities Today weapons unite Mississippians in the popular pastime of hunting deer turkey dove rabbit and even bear In the state's social and cultural character a shared lore and knowledge of hunting crosses age racial and economic lines Weapons once used for mere survival have transformed into instruments masterfully crafted for those harvesting the state's abundant game *Pirates, Raiders & Invaders of the Gulf Coast* Ryan Starrett, 2023-08-28 Authors Ryan Starrett and Josh Foreman chart a Gulf Coast odyssey with French adventurers English colonists Spanish Don's American filibusters Indian warriors African Maroons and pirate outlaws For centuries the shoreline between Galveston and Tallahassee was marked by the desperate deeds of men who fought for God gold and glory as well as those who simply wanted to be left alone Regardless of motive the Gulf Coast has seen its share of seafaring warriors and miscreants from the Tattooed Serpent and Osceola to Iberville and Davy Crockett It harbored privateers and pirates such as William Augustus Bowles and the Brothers Laffite *The Big Muddy* Christopher Morris, 2012-08-21 In *The Big Muddy* the first long term environmental history of the Mississippi Christopher Morris offers a brilliant tour across five centuries as he illuminates the interaction between people and the landscape from early hunter gatherer bands to present day industrial and post industrial society Morris shows that when Hernando de Soto arrived at the lower Mississippi Valley he found an incredibly vast wetland forty thousand square miles of some of the richest wettest land in North America deposited there by the big muddy river that ran through it But since then much has changed for the river and for the surrounding valley Indeed by the 1890s the valley was rapidly drying Morris shows how centuries of increasingly intensified human meddling including deforestation swamp drainage and levee construction led to drought

disease and severe flooding He outlines the damage done by the introduction of foreign species such as the Argentine nutria which escaped into the wild and are now busy eating up Louisiana's wetlands And he critiques the most monumental change in the lower Mississippi Valley the reconstruction of the river itself largely under the direction of the Army Corps of Engineers Valley residents have been paying the price for these human interventions most visibly with the disaster that followed Hurricane Katrina Morris also describes how valley residents have been struggling to reinvigorate the valley environment in recent years such as with the burgeoning catfish and crawfish industries so that they may once again live off its natural abundance Morris concludes that the problem with Katrina is the problem with the Amazon Rainforest drought and famine in Africa and fires and mudslides in California it is the end result of the ill considered bending of natural environments to human purposes
