National Bolshevism Stalinist Mass Culture And The Formation Of Modern Russian National Identity 1931 1956:

National Bolshevism David Brandenberger, 2002 During the 1930s Stalin and his entourage rehabilitated famous names from the Russian national past in a propaganda campaign designed to mobilize Soviet society for the coming war In a provocative study David Brandenberger traces this populist national Bolshevism into the 1950s highlighting the catalytic effect that it had on Russian national identity formation *Breaking the Tongue* Matthew D. Pauly, 2014-01-01 *Breaking the Tongue* examines the implementation of the Ukrainization of schools and children's organizations in the 1920s and early 1930s **Monuments for Posterity** Antony Kalashnikov, 2023-04-15 *Monuments for Posterity* challenges the common assumption that Stalinist monuments were constructed with an immediate propagandistic function arguing instead that they were designed to memorialize the present for an imagined posterity In this respect even while pursuing its monument building program with a singular ruthlessness and on an unprecedented scale the Stalinist regime was broadly in step with transnational monument building trends of the era and their undergirding cultural dynamics By integrating approaches from cultural history art criticism and memory studies along with previously unexplored archival material Antony Kalashnikov examines the origin and implementation of the Stalinist monument building program from the perspective of its goal to immortalize the memory of the era He analyzes how this objective affected the design and composition of Stalinist monuments what cultural factors prompted the sudden and powerful yearning to be remembered and most importantly what the culture of self commemoration revealed about changing outlooks on the future both in the Soviet Union and beyond its borders *Monuments for Posterity* shifts the perspective from monuments political ideological content to the desire to be remembered and prompts a much needed reconsideration of the supposed uniqueness of both Stalinist aesthetics and the temporal culture that they expressed Many Stalinist monuments still stand prominently in postsocialist cityscapes and remain the subject of continual heated political controversy Kalashnikov makes manifest monuments intentional attempts to seduce us the posterity for whom they were built *Myth, Memory, Trauma* Polly Jones, 2013-08-27 *DIV* Drawing on newly available materials from the Soviet archives Polly Jones offers an innovative comprehensive account of de Stalinization in the Soviet Union during the Khrushchev and early Brezhnev eras Jones traces the authorities initiation and management of the de Stalinization process and explores a wide range of popular reactions to the new narratives of Stalinism in party statements and in Soviet literature and historiography *divDIV divDIV* Engaging with the dynamic field of memory studies this book represents the first sustained comparison of this process with other countries attempts to rethink their own difficult pasts and with later Soviet and post Soviet approaches to Stalinism *divDIV div* **The Eastern Front** Yan Mann, Olga Kucherenko, 2024-11-14 The Second World War in Eastern Europe is far from a neglected topic especially since social cultural and diplomatic historians have entered a field previously dominated by operational histories and produced a cornucopia of new scholarship offering a more nuanced picture from both sides of the front However until now the story has

still been disjointed and specialized whereby military social economic and diplomatic histories continue to give their own separate accounts This collection of essays attempts to bring these themes into a more cohesive whole that tells a complex multifaceted story of war on the Eastern Front as it truly was This is one of the few critical examinations that includes both perspectives and looks at the war as a multi front effort It also reveals how myths are created around military conflicts and have direct relevance to current developments in Europe linking them to a broader discussion of the Second World War its impact and utility today It gives a historical dimension to pressing issues and will be of interest and relevance to history students policymakers political scientists diplomats and foreign policy experts The Eastern Front will be a useful reference source since some chapters rely on extensive new archival research and materials ego sources as well as extensive findings of non Western scholars thereby bringing their work to the attention of a broader audience

Intellectuals and Apparatchiks , *Empire of Nations* Francine Hirsch,2014-10-03 When the Bolsheviks seized power in 1917 they set themselves the task of building socialism in the vast landscape of the former Russian Empire a territory populated by hundreds of different peoples belonging to a multitude of linguistic religious and ethnic groups Before 1917 the Bolsheviks had called for the national self determination of all peoples and had condemned all forms of colonization as exploitative After attaining power however they began to express concern that it would not be possible for Soviet Russia to survive without the cotton of Turkestan and the oil of the Caucasus In an effort to reconcile their anti imperialist position with their desire to hold on to as much territory as possible the Bolsheviks integrated the national idea into the administrative territorial structure of the new Soviet state In *Empire of Nations* Francine Hirsch examines the ways in which former imperial ethnographers and local elites provided the Bolsheviks with ethnographic knowledge that shaped the very formation of the new Soviet Union The ethnographers who drew inspiration from the Western European colonial context produced all union censuses assisted government commissions charged with delimiting the USSR s internal borders led expeditions to study the human being as a productive force and created ethnographic exhibits about the Peoples of the USSR In the 1930s they would lead the Soviet campaign against Nazi race theories Hirsch illuminates the pervasive tension between the colonial economic and ethnographic definitions of Soviet territory this tension informed Soviet social economic and administrative structures A major contribution to the history of Russia and the Soviet Union *Empire of Nations* also offers new insights into the connection between ethnography and empire

Women and Martyrdom in Stalinist War Cinema Mozghan Samadi,2024-04-03 The key question asked in this book is how did Stalinist war cinema present Soviet women s resistance against the Nazi forces during World War II This book challenges those scholarly works which support the idea of the compatibility of femininity and combat under Stalinism Despite the Soviet regime s claim of being opposed to any religious heritage this book reveals how Stalinist cinema drew on Russian religious tradition and culture in the creation of cinematic representations of Soviet women during WWII Further the book shows how the adoption of Russian cultural and religious

heritage in Soviet war cinema served Stalinist collective identity construction policies and state citizen relations In so doing this study contributes to a range of fields within Russian and Soviet studies including gender studies cinema studies Soviet modernity and the study of identity construction and state nation relations Whilst this book is aimed at researchers and academics it provides a supplementary source for undergraduate and postgraduate students of Soviet Russian studies

The Legacy of the Soviet Union W. Slater,A. Wilson,2004-03-31 The Legacy of the Soviet Union offers a distillation by a group of eminent scholars of their experience of the post Soviet years Analysis of the post Soviet landscape is accompanied by meditations on the impact of the post Soviet transition on both policy makers and academics The book therefore examines both assumptions of transition and reconsiders the experience of Soviet communism in the light of its demise

The Devil in History Vladimir Tismaneanu,2012-09-28 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author s personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century s experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus Fran ois Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness
