National Dream The Last Spike:

National Dreams Daniel Francis, 2002-07-01 As Canadians we remember the stories told to us in high school history class as condensed images of the past the glorious Mountie the fearsome Native the Last Spike National Dreams is an incisive study of the most persistent icons and stories in Canadian history and how they inform our sense of national identity the fundamental beliefs that we Canadians hold about ourselves National Dreams is the story of our stories the myths and truths of our collective past that we first learned in school and which we carry throughout our adult lives as tangible evidence of what separates us from other nationalities Francis examines various aspects of this national mythology in which history is as much storytelling as fact Textbooks were an important resource for Francis For me these books are interesting not because they explain what actually happened to us but because they explain what we think happened to us For example Francis documents how the legend of the CPR as a country sustaining national affirming monolith was created by the company itself a group of capitalists celebrating the privately owned railway albeit one which was generously supported with public land and cash and reiterated by most historians ever since Similarly we learn how the Mounties were transformed from historical police force to mythic heroes by a vast army of autobiographers historians novelists and Hollywood filmmakers with little attention paid to the true role of the force in such incidents as the Bolshevik rebellion in which a secret conspiracy by the Government against its people was conducted through the RNWMP Also revealed in National Dreams are the stories surrounding the formation and celebration of Canadian heroes such as Louis Riel and Billy Bishop **The**

Sporting Scots of Nineteenth-century Canada Gerald Redmond, 1982 This book examines the role of the Scots in the development of Canadian sport The evidence from the wide range of primary and secondary sources cited by the author proves that the Scottish contribution was significant The National Dream: the Great Railway, 1871-1881 Pierre Berton, 1970 Story leading up to the signing of the contract for the CPR Pierre Berton Brian McKillop, 2011-06-22 The first ever biography of one of Canada's best known and most colourful personalities by an award winning author From his northern childhood on it was clear that Pierre Berton 1920-2004 was different from his peers Over the course of his eighty four years he would become the most famous Canadian media figure of his time in newspapers magazines radio television and books sometimes all at once Berton dominated bookstore shelves for almost half a century winning Governor General's Awards for Klondike and The Last Spike among many others along with a dozen honorary degrees Throughout it all Berton was larger than life full of verve and ideas he approached everything he did with passion humour and an insatiable curiosity He loved controversy and being the centre of attention and provoked national debate on subjects as wide ranging as religion and marijuana use A major voice of Canadian nationalism at the dawn of globalization he made Canadians take interest in their own history and become proud of it But he had his critics too and some considered him egocentric and mean spirited Now with the same meticulous research and storytelling skill that earned him wide critical acclaim for The Spinster and the

Before and After the State Allan K. McDougall, Lisa Philips, Daniel L. Boxberger, 2018-03-15 The evolution of the Canada-US borderland in the Pacific Northwest included the wholesale transformation of social organization and individual identities together with the redefinition and application of public power. Before and After the State examines the impact of those changes across a region that already harboured a vibrant highly complex mélange of societies with dynamic local regional and global trade and kin networks. Allan McDougall, Lisa Philips and Daniel Boxberger explore fundamental questions of state formation, social transformation and the re-construction of identity to expose the narratives and other devices of nation building, their impact on generations caught in the transition and the reverberations of those national myths that continue to the present.

Canadian Film and Video Loren R. Lerner, 1997-01-01 This extensive bibliography and reference guide is an invaluable resource for researchers, practitioners, students and anyone with an interest in Canadian film and video. With over 24,500 entries of which 10,500 are annotated, it opens up the literature devoted to Canadian film and video at last, making it readily accessible to scholars and researchers. Drawing on both English and French sources, it identifies books, catalogues, government reports, theses and periodical and newspaper articles from Canadian and non-Canadian publications from the first decade of the twentieth century to 1989. The work is bilingual; descriptive annotations are presented in the language(s) of the original publication. *Canadian Film and Video: Film et vidéo canadiens* provides an in-depth guide to the work of over 4,000 individuals working in film and video and 5,000 films and videos. The entries in Volume I cover topics such as film types, the role of government laws and legislation, censorship, festivals and awards, production and distribution companies, education, cinema buildings, women and film and video art. A major section covers filmmakers, video artists, cinematographers, actors, producers and various other film people. Volume II presents an author index, a film and video title index and a name and subject index. In the tradition of the highly acclaimed publication *Art and Architecture in Canada*, these volumes fill a long-standing need for a comprehensive reference tool for Canadian film and video. This bibliography guides and supports the work of film historians and practitioners, media librarians and visual curators, students and researchers and members of the general public with an interest in film and video.

Painful Choices David A. Welch, 2011-06-27 Under what conditions should we expect states to do things radically differently all of a sudden? In this book, David Welch seeks to answer this question, constructing a theory of foreign policy change inspired by organization theory, cognitive and motivational psychology and prospect theory. He then tests the theory in a series of comparative case studies in the security and trade domains: Argentina's decision to go to war over the Falklands/Malvinas vs. Japan's endless patience with diplomacy in its conflict with

Russia over the Northern Territories America's decision to commit large scale military force to Vietnam vs its ultimate decision to withdraw and Canada's two abortive flirtations with free trade with the United States in 1911 and 1948 vs its embrace of free trade in the late 1980s Painful Choices has three main objectives to determine whether the general theory project in the field of international relations can be redeemed given disappointment with previous attempts to reflect on what this reveals about the possibilities and limits of general theory and to inform policy Welch argues that earlier efforts at general theory erred by aiming to explain state behavior which is an intractable problem Instead since inertia is the default expectation in international politics all we need do is to explain changes in behavior Painful Choices shows that this is a tractable problem with clear implications for intelligence analysts and negotiators Pipe Dreams Jacques Poitras, 2018-09-25 Winner of the 2018 Writers Federation of New Brunswick Book Award for Non Fiction Shortlisted for the 2018 Writers Trust Shaughnessy Cohen Prize for Political Writing Shortlisted for the 2019 JW Dafoe Book Prize A timely chronicle of how Canada's oil pipelines have become hotbeds for debate about our energy future Indigenous rights environmental activism and east west political tensions Pipe Dreams is the dramatic story of the rise and fall of the Energy East pipeline and the broader battle over climate and energy in Canada The project was to be a monumental undertaking beginning near Edmonton AB and stretching over four thousand kilometres through Montreal to the Irving Oil refinery in Saint John NB Conceived as a back up plan for the stalled Keystone XL pipeline it became the crucible for a national debate over the future of oil In a cross country journey Poitras talked to industry executives prairie ranchers First Nations chiefs mayors premiers cabinet ministers and refinery workers He also explored Canada's perplexing oil relationship with the United States our industry is literally tied to its American counterpart with sinews of steel The Energy East pipeline represented a new direction designed to get Alberta oil sands crude to lucrative world markets Yet it was promoted in explicitly nationalist terms the country was said to be reorienting itself along its east west axis tying itself together again with a great feat of engineering By the time the journey ended the story had become a kind of whodunit Poitras witnessed the slow motion killing of the fifteen billion dollar project Unfolding in tandem with clashes over the Trans Mountain pipeline Energy East's demise heralded a potential turning point not just for a single proposal but for Canada's carbon economy Entertaining informative and insightful Pipe Dreams offers a clear picture of the complicated political environmental and economic issues that Canadians face **Catalog of Copyright Entries.
