National Interest In A Global Era Australia In World Affairs 1996 :

Australia in World Affairs 2016-2020 Baogang He, Australian Institute of International Affairs, David Hundt, Danielle Chubb, 2024-06-13 The thirteenth volume in the series Australia in World Affairs 2016 2020 A Return to Great Power Rivalry

Australia in International Politics Stewart Firth, 2020-07-28 The world changed for Australia after the terrorist attacks on the US on September 11 2001 and the Bali bombings of 2002 Security became the dominant theme of Australian foreign policy Australian military forces remained in Afghanistan years later opposing the terrorist threat of the Taliban while hundreds of Australian troops and police worked with public servants to build the state in Asia Pacific countries such as East Timor and Solomon Islands The world changed for Australia too when the global financial crisis of September 2008 threatened another Great Depression Meantime the international community made slow progress on measures to stem climate change potentially Australia's largest security threat In a newly revised and updated edition Australia in International Politics shows how the nation is responding to these challenges The book describes how Australian foreign policy has evolved since Federation and how it is made It examines Australia's part in the United Nations humanitarian intervention and peacekeeping It analyses defence policy and nuclear arms control It explains why Australia survived the global financial crisis and why the G20 has become the leading institution of global economic governance It charts the course of Australia's climate change diplomacy the growth of Australia's foreign aid human rights in foreign relations and the rise of China as a great power Written by one of Australia's most experienced teachers of international relations Australia in International Politics explains Australian foreign policy for readers new to the field one of the best books on Australian foreign policy that I have read in recent years Samuel M Makinda Australian Journal of Political Science

Europe and the Asia-Pacific Stephanie Lawson, 2013-12-16 The many points of contact and conflict about culture and identity that exist between Europe and the Asia Pacific are highlighted in this book This work surveys a variety of issues relating to culture identity and representation from an interdisciplinary perspective with contributions from sociology economics history politics international relations security studies museum studies translation studies and literary and cultural studies Each brings a different perspective to bear on questions of culture and identity in the contemporary period and how these relate to the politics of representation

East Timor, Australia and Regional Order James Cotton, 2004-05-20 This book explains the exceptional nature of the East Timor intervention of 1999 and deals with the background to the trusteeship role of the UN in building the new polity All of these developments had an important impact on regional order not least testing the ASEAN norm of non interference Australian complicity in the Indonesian occupation of East Timor was a major factor in the persistence of Indonesian rule in the territory which was maintained for twenty five years despite international censure and which required an unremitting campaign against the independence movement This work reviews the reasons for that history of complicity and explains the extraordinary change of policy that led ultimately to the occupation of the territory by the

Australian led INTERFET coalition **Australia-China Relations post 1949** Yi Wang, 2016-04-08 This book challenges the common perceptions of Australian dependence upon great power allies in the conduct of its foreign relations through a critical examination of Australia's relations with the People's Republic of China. The author focuses on the economic and political dimensions of the policy making process from the founding of the PRC in 1949 to the present era against an analytical framework that takes into account both internal and external factors in the formulation and implementation of Australian foreign policy. Informed by political science and international relations, the book differs from the conventional literature on Sino-Australian relations which has either focused on pure economic analysis or concentrated on chronicling historical events. The author weaves theoretical insights from political science and international relations into the historical analysis while seeking to examine the interplay between political and economic factors over time in shaping policy outcomes. The book draws not only on primary and secondary sources but also on information and insights obtained from interviews with a vast array of direct participants in the policy process including almost all the former ambassadors from both China and Australia covering the entire period of the diplomatic relationship. As a result, the book breaks new ground especially from the Hawke era onwards, revealing hitherto overlooked details of interest in the policy process. Trade Liberalization and APEC Jiro Okamoto, 2004-02-26 Trade liberalization has swept over developing countries over the past few decades and its results have been argued about for the last few years. This important new book presents useful insights into the experience of APEC countries that have gone through numerous liberalizing reforms in recent times. Students, researchers and readers generally interested in **Australian Security After 9/11** Derek McDougall, 2020-07-24 Debates on security became more intense following the unanticipated end of the Cold War conflict and took on added force after the terrorist attacks on the US on September 11, 2001. Generally viewed as a part of the wider West despite its separation by enormous geographical distances from both Europe and the United States, Australia is a regional power in its own right. It has been an active and loyal member of the US-led coalitions of the willing first in Afghanistan and then in Iraq. The terrorist attacks in Bali one year after the attacks in the United States brought home to Australia the direct nature of the new global terrorist threats to its own security. This volume brings together leading experts on international security and Australia's foreign and security policies in a critical examination of Australia's adaptations to the new security challenges. It is the first in-depth and comprehensive analysis of Australia's defence and security policies as well as the country's role in countering regional and global challenges to international security since the war on terrorism began. Defence Planning and Uncertainty Stephan Frühling, 2014-04-24 How can countries decide what kind of military forces they need if threats are uncertain and history is full of strategic surprises? This is a question that is more pertinent than ever as countries across the Asia-Pacific are faced with the military and economic rise of China. Uncertainty is inherent in defence planning but different types of uncertainty mean that countries need to approach decisions about military force structure in different ways. This book examines four

different basic frameworks for defence planning and demonstrates how states can make decisions coherently about the structure and posture of their defence forces despite strategic uncertainty It draws on case studies from the United States Australian and New Zealand each of which developed key concepts for their particular circumstances and risk perception in Asia Success as well as failure in developing coherent defence planning frameworks holds lessons for the United States and other countries as they consider how best to structure their military forces for the uncertain challenges of the future

Re-Orienting Australia-China Relations Nicholas Thomas, 2017-03-02 Drawing on contributors from academic and policy communities this volume explores the major aspects of Australia China relations The frequently overlooked connection between Australia and Taiwan is also considered to allow readers to reach a full appreciation of the restraints engendered by the relationship with China as well as its many benefits Moving beyond the traditional state centric analysis the work incorporates new material on sub state relations as well as examining the impact of global economic and social forces on the Australia China friendship In addition to providing a contemporary understanding of the bilateral ties this work also provides a benchmark against which Australia's other relations with the countries of East Asia can be measured

Middle Powers in Asia Pacific Multilateralism Sarah Teo, 2022-11-25 Drawing on insights from differentiation theory this book examines the participation of middle powers in multilateralism Taking Australia Indonesia and South Korea as examples the book examines these countries roles in regional organizations and particularly during the creation of the Asia Pacific Economic Cooperation APEC and East Asia Summit Through its analysis the book argues that middle powers pursue dilution of major power stratificatory forces as well as functionally differentiated roles for themselves in multilateral diplomacy The book sets out a valuable new framework to explain and understand the behaviour of middle powers in multilateralism
