American Catholics William V. D'Antonio, James D. Davidson, Dean R. Hoge, Katherine Meyer, Bishop William B. Friend, 2001-08-07 How much do American Catholics still identify with the Catholic Church Do they agree with the Church's teachings and how often do they participate in its sacraments What do they think it takes to be a good Catholic What do they consider to be the Church's core teachings How do they believe issues of faith and morals should be decided by the hierarchy the laity or some combination of the two How are they coping with the priest shortage and what do they believe the Church should do to solve the problem How do they feel about social issues such as capital punishment and increased military spending In American Catholics four distinguished sociologists use national surveys from 1999 1993 and 1987 to examine these issues They show that Catholics' beliefs and practices are changing They also demonstrate how differences in gender generation and commitment to the Church influence attitudes on all of these issues Balanced and clear filled with useful tables and charts and unique in its ability to compare results over time American Catholics makes essential reading for anyone interested in the future of Catholicism in the United States

Mobilizing Adults for Positive Youth Development E. Gil Clary, Jean E. Rhodes, 2006-09-24 Perhaps no other challenge is more pressing in creating developmentally tentative community and society the theme of this book series than mobilizing adults to play a constructive role in the lives of children and adolescents In a society that too easily defaults to designing programs as cure-alls for meeting young people's needs particular attention must be paid to understanding and mobilizing the kind of positive relational energy that prepares each successive generation to assume its place in society Although programs and institutions certainly play important roles the key lies in the personal commitment involvement and investment of adults in young people's lives In Mobilizing Adults for Positive Youth Development Strategies for Closing the Gap between Beliefs and Behaviors E. Gil Clary and Jean E. Rhodes have assembled the insights of leading scholars from multiple disciplines and contexts for engaging a broad cadre of adults as allies for youth development As the editors write the question guiding the book is How can we most effectively encourage adults both individually and collectively to begin to behave differently with respect to the young people of a community to do so consistently and to do so in a variety of ways What is being proposed then is nothing less than a social movement that engages individuals small groups neighborhoods workplaces schools faith communities and broader social institutions in attending to the well-being and healthy development of young people
