National Trust Of Furnishing Textiles:

The National Trust Book of Furnishing Textiles Pamela Clabburn, 1989 Faded and Threadbare Historic Textiles and their Role in Houses Open to the Public Margaret Ponsonby, 2016-04-15 Many historic houses that open to the public in England and Wales particularly those owned by the National Trust preserve their contents rather than restore them to a particular period The former owners of these houses often retained objects from various periods and this layering of history produces interiors that look aged and patinated Although the reason for this preservation and lack of fashionable renewable can be attributed to declining economic fortunes in the twentieth century there are many examples of families practising this method of homemaking over a much longer period Taking National Trust properties as its central focus this book examines three interlocking themes to examine the role of historic textiles Firstly it looks at houses with preserved contents together with the reasons for individual families choosing this lifestyle secondly the role of the National Trust as both guardian and interpreter of these houses and their collections and finally and most importantly the influence of textiles to contribute to the appearance of interiors and their physical attributes that carry historical resonances of the past The importance of preserved textiles in establishing the visual character of historic houses is a neglected area and therefore the prominence given to textiles in this project constitutes an original contribution to the study of these houses Drawing upon a range of primary sources including literature produced by the National Trust for their sites and documentary sources for the families and their houses such as diaries letters and household accounts the study takes a broad approach that will be of interest to all those with an interest in material culture heritage collecting studies and cultural history **Textile Conservation** Frances Lennard, Patricia Ewer, 2010-09-08 Textile Conservation Advances in Practice demonstrates the development in the role and practice of the textile conservator and captures the current diversity of textile conservators work The book focuses on four major factors which have influenced development in textile conservation practice since the 1980s the changing context an evolution in the way conservators think about objects the greater involvement of stakeholders and technical developments These are all integral to effective conservation decision making Includes case studies from the UK USA and mainland Europe and Asia Assesses the conservation of objects in some of the world's major cultural institutions Highly illustrated in full colour to show the effect of conservation in practice Textile Conservation is a reference manual for textile conservators textile conservation students and museum and heritage professionals **Encyclopedia of Interior Design** Joanna Banham, 1997-05-01 From ancient Greece to Frank Lloyd Wright studiola to smoking rooms chimney boards to cocktail cabinets and papier m ch to tubular steel the Encyclopedia of Interior Design provides a history of interior decoration and design from ancient times to the present day It includes more than 500 illustrated entries covering a variety of subjects ranging from the work of the foremost designers to the origins and function of principal rooms and furnishing types as well as surveys of interior design by period and nationality all prepared by an international team of experts in the field Entries on

Eighteenth-Century Furniture Clive Edwards, 1996 The eighteenth century has been seen as a Golden Age of design and craftsmanship This book goes well beyond these ideas and investigates the various developments in the infrastructure of the eighteenth century furniture world Luxury Peter McNeil, Giorgio Riello, 2016-05-19 We live in a world obsessed by luxury Long distance airlines compete to offer first class sleeping experiences and hotels recommend exclusive suites where you are never disturbed Luxury is a rapidly changing global industry that makes the headlines daily in our newspapers and on the internet More than ever luxury is a pervasive presence in the cultural and economic life of the West and increasingly too in the emerging super economies of Asia and Latin America Yet luxury is hardly a new phenomenon Today s obsession with luxury brands and services is just one of the many manifestations that luxury has assumed In the middle ages and the Renaissance for example luxury was linked to notions of magnificence and courtly splendour In the eighteenth century luxury was at the centre of philosophical debates over its role in shaping people s desires and oiling the wheels of commerce And it continues to morph today with the growth of the global super rich and increasing wealth polarization From palaces to penthouses from couture fashion to lavish jewellery from handbags to red wine from fast cars to easy money Peter McNeil and Giorgio Riello present the first ever global history of luxury from the Romans to the twenty first century a sparkling and ever changing story of extravagance excess novelty and indulgence *The Country House Servant* Pamela A Sambrook, 2002-05-13 One 19th century footman complained about the work involved in drawing more than 40 baths for his household yet Lady Grenville felt no compunction in describing her footman as a lazy flunkey For centuries a large body of domestic servants was an often unappreciated foundation for the smooth running of a household Today the warrens of domestic offices intrigue visitors This book makes sense of these and the social structures behind them It describes the skills equipment cleaning methods and work organization of the housemaid laundrymaid footman valet and hall boy the servants who spent their days polishing fine furniture and washing brilliant chandeliers but also sponging filthy riding habits and washing babies nappies The author also looks at how servants spent their leisure time One footman enjoyed rowing on the lake every morning before work while others had to sit up late at night sewing their own work dresses Contemporary

manuals diaries accounts and first hand recollections provide a vivid insight into what life was really like for those in domestic service A wealth of photographs engravings and panels illustrate the domestic workings of country houses many now looked after by the National Trust This is an absorbing book for social historians and visitors to country houses alike
