and simultaneously celebrated as a source of the sublime With little forethought and great greed Americans killed the last passenger pigeon wiped out the old growth forests and dumped so much oil in the rivers that they burst into flame But in the span of a few decades our relationship with nature has evolved to a more sophisticated sense of interdependence that brings us full circle Across the US people are taking individual action planting native species and fighting for projects like dam removal and wolf restoration Cities are embracing nature too Humans can learn from the past and our choices today will determine whether nature survives Like the First Nations all nations must come to deep agreement that nature needs protection This compelling book reveals both how we got here and our own and nature s astonishing ability to mutually regenerate *Wild Birds and Wild Animals.
