Vietnam and the World Eero Palmujoki, 2016-07-27 Vietnam and the World is a comprehensive book on Vietnam s international relations since 1975 It is also a study on the development of Marxist Leninist doctrine in Vietnam With its special reference to foreign policy the book examines how formalist Marxist Leninist rhetoric penetrated traditional pragmatically oriented Vietnamese thinking By using previously unexploited Vietnamese material the author pinpoints the development of Vietnamese doctrine vis a vis pragmatism and formalism and analyzes the line pursued by Vietnam during the radical changes in international relation between 1975 and 1993 *The Metaphysics of Power* Anthony E. Mansueto, 2025-03-18 Mounting a searing critique of Martin Heidegger and Carl Schmidt and their broader influence on the contemporary Left including the work of Giorgio Agamben Alain Badiou and Slavoj i ek Anthony Mansueto s *The Metaphysics of Power* argues that the common flaw of all contemporary political projects Left and Right is a narrow strategic focus on achieving and holding state power This focus is grounded in a doctrine of sovereignty divine and human rooted in a decisionist political theology which derives ultimately from Paul of Tarsus and which made historic Christianity from the beginning an ideology of empire In the place of this decisionist political theology he proposes that we understand Being and thus God as a relational transformative generativity that acts only as final cause and only from outside space and time making even divine sovereignty logically impossible Seeking to become God but trapped in a contingency that cannot be transcended we create structures that attempt divinity by means of exploiting and oppressing others structures which like

the commodification of labor power ultimately strip us of our humanity making resistance impossible And yet we are also lured by the incredible beauty of God to mend the torn fabric of the universe to build and rebuild relationships and institutions which challenge and nurture us and thus to ripen a contingent being that will always fall short of its end but is capable of finding meaning and joy nonetheless *Hearings, Reports and Prints of the Senate Committee on the Judiciary*
