**Inside the Bauhaus** Howard Dearstyne, 2014-05-16 Inside the Bauhaus presents the story of an idea about how people might live. It is also the story of a school, the Bauhaus, whose life span coincided with the Weimar Republic and whose history mirrors German history between the two world wars. Through mass production, the Bauhaus, like the German Werkbund, hoped to change the quality of the designed object and the designed environment for everyone. Quality of life was an important design consideration in the housing schemes developed by Walter Gropius and Hannes Meyer, respectively the first and second directors of the school. Ludwig Hilberseimer, whose teaching responsibilities at the Bauhaus included the planning curriculum, Howard Dearstyne, the author of the present work, was one of a handful of Americans to study at the Bauhaus and the only one to earn a diploma in architecture. His account of life and education at the Bauhaus is drawn chiefly from contemporary sources: from his letters, from journals, and from letters kept by members of the Bauhaus faculty, from newspaper articles, and from the recollections of others. Dearstyne also includes historical background of the structure of the curriculum of the Bauhaus as well as discussions of the various workshops and how they functioned prior to his admission to the school. **Les Fauves** Russell T. Clement, 1994-05-25 This is the first comprehensive scholarly bibliography, research guide, sourcebook on the major French Fauve painters. Henri Matisse and Georges Braque are treated in separate Greenwood bio bibliographies. It includes information on 3120 books and articles as well as chronologies, biographical sketches, and exhibition lists. Each artist receives a primary and secondary bibliography with many annotated entries. Secondary bibliographies include details about each artist's life and career, relationships with other artists, work in various media, iconography, and more. Designed for art historians, art students, museum and gallery curators, and art lovers alike, this volume organizes the vast literature surrounding this fascinating revolutionary 20th century art group. Genuinely new art is always challenging, sometimes even shocking to those unprepared for it. In 1905 the paintings of Matisse, Derain, Vlaminck, and their friends shocked conservative museumgoers; hence the eventual popularity of art critic Louis Vauxcelles's tag, *les fauves* or wild beasts, by which these artists became known. Although it lasted only three or four years, Fauvism is recognized as the first artistic revolution of international consequence in the 20th century. It was based on the glorification of pure, saturated colors and the free expression of primitivism. It was a dynamic sensualism, an equilibrium of passion and order, fire and austerity that could not last. By the end of 1908, Fauvism collapsed in the face of Cubism, which moreover several Fauve artists helped to form.
