Nationalism And Exclusion Of Migrants:

Nationalism and Exclusion of Migrants Mérove Gijsberts, Louk Hagendoorn, 2017-07-05 The association of exclusionist and nationalist relations termed ethnocentrism has been previously explored within single country contexts Studies have shown that dispositional factors such as social identity and personality traits affect ethnocentric reactions and that attitudes differ between social categories However broader national and international explanations have been neglected in the literature This book fills this major gap by providing a unique account of the relationship between nationalist attitudes and the exclusion of migrants across a range of European countries the US Canada and Australia Drawing on a variety of comparative surveys the authors assess whether ethnic exclusionist reactions and nationalist attitudes are indeed systematically related across countries and whether variations in such attitudes reflect country level as well as individual level differences The authors consider the multidimensionality of the concepts of nationalism and exclusionism as well as the empirical associations and analyze the attitudes of both majority and minority groups within the countries studied

Nationalism and Exclusion of Migrants Mérove Gijsberts, Louk Hagendoorn, 2017-07-05 This ground breaking book draws on a variety of comparative surveys to provide a unique account of the relationship between nationalist attitudes and the exclusion of migrants across a range of European countries the US Canada and Australia

Migration and Nationalism Michael Samers, Jens Rydgren, 2024-01-18 This cutting edge book presents a unique focus on nationalism and migration exploring the relationship between these two concepts in countries throughout the world Combining theoretical and empirical discussions from a range of disciplinary perspectives the book interrogates the consequences of nationalism for migration in the 21st century

Towards a Decent Labour Market for Low-Waged Migrant Workers Conny Rijken, Tesseltje Lange, 2025-10-01 Central to this edited volume is the legal position and the labour situation of non EU and EU low waged migrant workers *Towards a Decent Labour Market for Low Waged Migrant Workers* presents ground breaking research on policies and practices in search of striking a right balance between the economic ambitions and the negative consequences thereof for labour market dynamics such as down ward wage pressures unfair competition the abuse of migrant workers and even the long term setback for the children of previously low waged migrant workers Imbalances or presumed imbalances between free market mechanisms labour migration policies labour market protection and corrective mechanisms to protect migrant workers thus come to the fore The contributors to this volume will deconstruct some of these imbalances and shed light on its causes consequences and interrelatedness with other factors Possible solutions that contribute to a decent labour market in which rights of low waged migrant workers are more respected will be discussed

Generations and Nationalism Alain-G Gagnon, Luc Turgeon, 2025-09-02 *Generations and Nationalism* breaks new ground by placing the impact of generation and generational changes at the forefront of an investigation on the transformation of nationalist movements and the evolution of support for independence in Catalonia Quebec and Scotland The main objective

of the book is to explore how a focus on generations and generational change can add first to the theoretical toolkit used in the study of nationalism and second can lead to a better understanding of the recent evolution of nationalism in three internal nations Catalonia Quebec and Scotland The book is also an occasion to revisit the distinct evolution of nationalism in these three internal nations that have been the object of important comparative studies in the past and frequent comparisons in public discourses but in which nationalist movements have gone through relatively distinct transformations over the past decade The different chapters tackle nation building autonomy and self determination ethnic identity conflict and accommodation ethnonationalism irredentism and separatism and immigration naturalization and citizenship The book also is unique to the extent that it establishes a dialogue between scholars who are specialists of public opinion drawing on quantitative methods and scholars drawing on different comparative historical perspectives in sociology and political science Containing both theoretical discussions of nationalism as well as case studies and comparative analyses of nationalist movements **Generations and Nationalism** will be of great interest to students and scholars researching nationalism public opinion youth politics political theory and quantitative and historical methods

Migration, Transnationalism and Catholicism Dominic Pasura, Marta Bivand Erdal, 2017-02-21 This book is the first to analyze the impacts of migration and transnationalism on global Catholicism It explores how migration and transnationalism are producing diverse spaces and encounters that are moulding the Roman Catholic Church as institution and parish pilgrimage and network community and people Bringing together established and emerging scholars of sociology anthropology geography history and theology it examines migrants religious transnationalism but equally the effects of migration related diversity on non migrant Catholics and the Church itself This timely edited collection is organised around a series of theoretical frameworks for understanding the intersections of migration and Catholicism with case studies from 17 different countries and contexts The extent to which migrants religiosity transforms Catholicism and the negotiations of unity in diversity within the Roman Catholic Church are key themes throughout This innovative approach will appeal to scholars of migration transnationalism religion theology and diversity

Turkish Migration Policy Ibrahim Sirkeci, Barbara Pusch, 2016-06-04 **TURKISH MIGRATION POLICY** edited by Ibrahim Sirkeci and Barbara Pusch aims to shed light on changes in migration policy determinants beneath these changes and practical implications for movers and non movers in Turkey Nevertheless one should note that Turkey has only recently faced mass immigration and the number of foreign born has more than doubled in less than five years Such sudden change in population composition warrants policy adjustments and reviews Policy shift from exporting excess labour in the 1960s and 1970s to immigrant integration today is a drastic but necessary one Nevertheless Turkish migration policy is still far from settled as several chapters in this book point out Despite the exemplary humanitarian engagement in admitting Syrians Turkey is still at the bottom of the league table of favourable integration policies with an overall score of 25 out of 100 Turkish migration policy is likely to be adjusted further in response to the continuing immigration

The Nationalist

Dilemma Marvin Suesse, 2023-05-11 Nationalists think about the economy Marvin Suesse argues and this thinking matters once nationalists hold political power Many nationalists seek to limit global exchange but others prioritise economic development The potential conflict between these two goals shapes nationalist policy making Drawing on historical case studies from thirty countries from the American Revolution to the rise of China this book paints a broad panorama of economic nationalism over the past 250 years It explains why such thinking has become influential despite the internal contradictions and chequered record of many nationalist policy makers At the root of economic nationalism's appeal is its ability to capitalise upon economic inequality both domestic and international These inequalities are reinforced by political factors such as empire building ethnic conflicts and financial crises This has given rise to powerful nationalist movements that have decisively shaped the global exchange of goods people and capital *Border and Rule* Harsha Walia, 2021-02-09 In *Border and Rule* one of North America's foremost thinkers and immigrant rights organizers delivers an unflinching examination of migration as a pillar of global governance and gendered racial class formation Harsha Walia disrupts easy explanations for the migrant and refugee crises instead showing them to be the inevitable outcomes of the conquest capitalist globalization and climate change that are generating mass dispossession worldwide *Border and Rule* explores a number of seemingly disparate global geographies with shared logics of border rule that displace immobilize criminalize exploit and expel migrants and refugees With her keen ability to connect the dots Walia demonstrates how borders divide the international working class and consolidate imperial capitalist and racist nationalist rule Ambitious in scope and internationalist in orientation *Border and Rule* breaks through American exceptionalist and liberal responses to the migration crisis and cogently maps the lucrative connections between state violence capitalism and right wing nationalism around the world Illuminating the brutal mechanics of state formation Walia exposes US border policy as a product of violent territorial expansion settler colonialism enslavement and gendered racial ideology Further she compellingly details how Fortress Europe and White Australia are using immigration diplomacy and externalized borders to maintain a colonial present how temporary labor migration in the Arab Gulf states and Canada is central to citizenship regulation and labor control and how racial violence is escalating deadly nationalism in the US Israel India the Philippines Brazil and across Europe while producing a disaster of statelessness for millions elsewhere A must read in these difficult times of war inequality climate change and global health crisis *Border and Rule* is a clarion call for revolution The book includes a foreword from renowned scholar Robin D G Kelley and an afterword from acclaimed activist academic Nick Estes Ethno-religious Identification and Intergroup Contact Avoidance Menandro Sarion Abanes, 2014 This study focuses on the latent aspects of an ethno religious conflict describing why and how people avoid contact with out groups Their contact avoidance is largely based on the notion of power The book shows how contact avoidance towards out groups is related to people's ethno religious identification This is explained by various factors such as a perceived group threat out group distrust fundamentalism

quantity of contact and direct experiences of violence Finally the book illustrates how education mass media and the history of conflict are related with intergroup contact avoidance Series Nijmegen Studies in Development and Cultural Change
