Rogers Brubaker

Nationalism Reframed Nationhood And The National Question In The New Europe:

Nationalism Reframed Rogers Brubaker, 1996-09-28 This study of nationalism in Eastern Europe and the former Soviet Union develops an original account of the interlocking and opposed nationalisms of national minorities the nationalizing states in which they live and the external national homelands to which they are linked by external ties Nationalism Reframed Rogers Brubaker, 1998

Citizenship Policies in the New Europe Rainer Bauböck, Bernhard Perchinig, Wiebke Sievers, 2009 Citizenship Policies in the New Europe describes the citizenship laws in each of the twelve new countries as well as in the accession states Croatia and Turkey and analyses their historical background Citizenship Policies in the New Europe complements two volumes on Acquisition and Loss of Nationality in the fifteen old Member States published in the same series in 2006 Book Jacket

Divided Nations and European Integration Tristan James Mabry, John McGarry, Margaret Moore, Brendan O'Leary, 2013-07-16 For ethnic minorities in Europe separated by state borders such as Basques in France and Spain or Hungarians who reside in Slovakia and Romania the European Union has offered the hope of reconnection or at least of rendering the divisions less obstructive Conationals on different sides of European borders may look forward to increased political engagement including new norms to support the sharing of sovereignty enhanced international cooperation more porous borders and invigorated protections for minority rights Under the pan European umbrella it has been claimed that those belonging to divided nations would no longer have to depend solely on the goodwill of the governments of their states to have their collective rights respected Yet for many divided nations the promise of the European Union and other pan European institutions remains unfulfilled Divided Nations and European Integration examines the impact of the expansion of European institutions and the ways the EU acts as a confederal association of member states rather than a fully multinational federation of peoples A wide range of detailed case studies consider national communities long within the borders of the European Union such as the Irish and Basques communities that have more recently joined such as the Croats and Hungarians and communities that are not yet members but are on its borders or in its near abroad such as the Albanians Serbs and Kurds This authoritative volume provides cautionary but valuable insights to students of European institutions nations and nationalism regional integration conflict resolution and minority rights Contributors Tozun Bahcheli Zoe Bray Alexandra Channer Zsuzsa Cserg Marsaili Fraser James M Goldgeier Michael Keating Tristan James Mabry John McGarry Margaret Moore Sid Noel Brendan O Leary David Romano Etain Tannam Stefan Wolff

Separatism and Sovereignty in the New Europe Janet Laible, 2008-11-23 This book investigates why despite European integration separatist nationalism continues to thrive in EU member states Laible demonstrates that the EU sustains the importance of statehood and therefore separatism and creates new forms of political capital that nationalists employ in their struggles for self government

Diasporas and Transportation of Homeland Conflicts Élise Féron, Bahar Baser, 2024-05-07 This book explores the transformation and reinvention of conflict generated diaspora groups politics in countries of residence

Numerous narratives link diasporas and conflicts diasporas are seen alternatively as peace wreckers or peace makers as products of forced migration related to conflicts or as targets of securitization policies Transported conflicts occurring within and between diasporas in their countries of residence however remain relatively underexplored tend to be misunderstood and often associated with criminal or terrorist activities The chapters in this volume draw our attention to various interconnected temporalities explaining patterns of conflict transportation such as the temps long of diasporic mobilisation the here and now of what is happening in both host and home countries and micro temporalities and diasporans life trajectories Finally the contributions demonstrate that patterns shapes and even occurrence of conflict transportation vary according to scale and space Highly politicized forms of confrontation are not necessarily representative of everyday interactions between diaspora groups which can entail discrete but tangible forms of cooperation and even solidarity This edited volume calls for nuancing our approach to the links between diasporas and conflicts to avoid falling into the essentialisation trap The chapters in this book were originally published in *Ethnopolitics* *The Legacy of Supranationalism* P. Close, 2000-08-22 The doctrine of supranationalism has been most evident in Europe but has become increasingly a global tour de force Supranationalism is the ideological driving force behind the process of European integration and so the European Union the first supranational regional regime SRR But the same doctrine has bequeathed other gifts to the world and to posterity The EU is evolving as a prominent global player and as a result appears to have become an inspiration and model for the proliferation of other SRRs and proto SRRs However as SRRs acquire greater power relative to traditional global players such as nation states a further state of development has ensued entailing the creation of supranational global regimes SGRs signalled by the progress of the United Nations and the World Trade Organisation **Capitalist Diversity on Europe's Periphery** Dorothee Bohle, Béla Greskovits, 2012-07-27 With the collapse of the Council for Mutual Economic Assistance in 1991 the Eastern European nations of the former socialist bloc had to figure out their newly capitalist future Capitalism they found was not a single set of political economic relations Rather they each had to decide what sort of capitalist nation to become In *Capitalist Diversity on Europe's Periphery* Dorothee Bohle and Béla Greskovits trace the form that capitalism took in each country the assets and liabilities left behind by socialism the transformational strategies embraced by political and technocratic elites and the influence of transnational actors and institutions They also evaluate the impact of three regional shocks the recession of the early 1990s the rolling global financial crisis that started in July 1997 and the political shocks that attended EU enlargement in 2004 Bohle and Greskovits show that the postsocialist states have established three basic variants of capitalist political economy neoliberal embedded neoliberal and neocorporatist The Baltic states followed a neoliberal prescription low controls on capital open markets reduced provisions for social welfare The larger states of central and eastern Europe Poland Hungary and the Czech and Slovak republics have used foreign investment to stimulate export industries but retained social welfare regimes and substantial government power to enforce

industrial policy Slovenia has proved to be an outlier successfully mixing competitive industries and neocorporatist social inclusion Bohle and Greskovits also describe the political contention over such arrangements in Romania Bulgaria and Croatia A highly original and theoretically sophisticated typology of capitalism in postsocialist Europe this book is unique in the breadth and depth of its conceptually coherent and empirically rich comparative analysis Cultural Autonomy in Contemporary Europe David J. Smith, Karl Cordell, 2013-10-18 In this volume some of the world's leading scholars involved in researching the fields of ethnopolitics nationalism and ideas of nation and state have come together to produce a work that is both original and accessible The volume explores the rich but sadly neglected tradition of thought on non territorial cultural autonomy as exemplified by the work of Karl Renner and Otto Bauer and the European Nationalities Congress of the 1920s Through a combination of theoretical analysis and case study approaches the authors challenge conventional thinking on how best to reconcile competing claims over territory and cultural expression Drawing upon a range of examples from countries such as Russia Romania and Hungary and by comparing the situation of territorially based ethnic minorities with those principally the Roma who lack identification with a given state or states the authors of this volume seek to supply answers and question received truths *The Routledge History of East Central Europe since 1700* Irina Livezeanu, Arpad von Klimó, 2017-03-16 Covering territory from Russia in the east to Germany and Austria in the west The Routledge History of East Central Europe since 1700 explores the origins and evolution of modernity in this turbulent region This book applies fresh critical approaches to major historical controversies and debates expanding the study of a region that has experienced persistent and profound change and yet has long been dominated by narrowly nationalist interpretations Written by an international team of contributors that reflects the increasing globalization and pluralism of East Central European studies chapters discuss key themes such as economic development the relationship between religion and ethnicity the intersection between culture and imperial national wartime and revolutionary political agendas migration women's and gender history ideologies and political movements the legacy of communism and the ways in which various states in East Central Europe deployed and were formed by the politics of memory and commemoration This book uses new methodologies in order to fundamentally reshape perspectives on the development of East Central Europe over the past three centuries Transnational and comparative in approach this volume presents the latest research on the social cultural political and economic history of modern East Central Europe providing an analytical and comprehensive overview for all students of this region
