Nationalism and Revolution in Indonesia George MacTurnan Kahin, 1970

History Of The International: World Socialism 1943-1968 Julius Braunthal, 2019-03-20 With this volume the history of the first century of the International reaches its conclusion Originally I had intended that the trilogy would come to a close with the centenary of the founding of the First International in September 1964 But before I could finish writing the third volume the tragedy of the Communist revolution in Czechoslovakia had played itself out The Spring of Prague of 1968 having set in motion a process of change from a Communist dictatorship to a Socialist democracy was followed within a few months by the invasion of the armies of the five Warsaw Pact powers to forestall reformation in Czechoslovakia Both revolution and counter revolution were events of the utmost significance for the history of Socialism the revolution for showing that it was possible for a Communist system of totalitarian dictatorship to be transformed without resort to force and the counter revolution for showing how the regime in the Soviet Union has remained essentially unaltered since Stalin's death The invasion of Czechoslovakia brutally called in question any optimistic perspective of development within the Soviet Union itself

Official History in Modern Indonesia Michael Wood, 2005-08-01 Dealing with New Order perceptions of the past this study gives insights into how the past can be used for purposes of national building and regime legitimization and into the nature of the New Order The Suharto regime created a coherent history that is reflected in recent archaeological and historical research in popular histories and biographies in monuments and in school textbooks The author describes an official history stretching from the proto Indonesia of Majapahit through the Indonesian Revolution up to the birth of the New Order in 1965 He also gives a counterview to this history stressing Indonesia's place in the larger Islamic world The past emphasized political stability and national unity under the guidance of the military and socially disruptive ideas were to be avoided

Nationalism, Revolution and Guided Democracy in Indonesia Roeslan Abdulgani, 1973

The Politics of Indonesia-Malaysia Relations Joseph Chinyong Liow, 2005 This book provides a comprehensive overview of the relationship between Indonesia and Malaysia focusing especially on how the relationship has developed in the last fifty years It argues that the political

relationship between the two countries has been largely defined by rivalry despite the fact that the processes of national self determination began by emphasising Indo Malay fraternity It shows how the two countries have different contested interpretations of Indo Malay history and how the continuing suspicion of Javanese hegemony which defined much of the history of the Indo Malay world is also a key factor in the relationship

Indonesia, Islam, and the International

Political Economy Mark Williams, 2017-04-21 The Republic of Indonesia is a rising great power in the Asia Pacific set to become the eighth largest economy in the world in the coming decades It is the most populous Muslim majority country in the world The largest Islamic organizations and parties have supported Indonesia's participation with global markets but this has not come from an ideological support for capitalism or economic liberalization Islamic political culture has denounced the injustices caused by global capitalism and its excesses In fact support for Indonesia's engagement with the international political economy is born from political pragmatism and from Indonesia's struggles to achieve economic development This book examines the role of Islamic identity in Indonesia's foreign economic relations and in its engagement with the world order There is no single expression of Islam in Indonesia the politics espoused by Islamic parties and organizations are far from monolithic Islamic sentiment has been invoked by the state to justify heinous acts of brutality as well as by violent subnational revolutionary groups However these expressions of Islam have deviated from the dominant narrative which is in favour of international cooperation and economic development Economic exploitation political alienation financial volatility and aggression toward Muslims around the world that has caused some Islamic groups to radicalize The political culture of Islam in Indonesia is a social force that is helping to foster a peaceful rise for Indonesia However a peaceful expression of Islam is not inevitable for the republic nor can it be assumed that Islamic identity in Indonesia will unwaveringly support the global economic order regardless of what might occur in global politics

Contesting Indonesia Kirsten E.

Schulze, 2024-10-15 Contesting Indonesia explains Islamist separatist and communal violence across Indonesian history since 1945 In a sweeping argument that connects endemic violence to a national narrative Kirsten E Schulze finds that the outbreak of violence is related to competing local notions of the national imaginary as well as contentious belonging Through detailed examination of six case studies the Darul Islam rebellions Jemaah Islamiyah's jihad and the conflicts in East Timor Aceh Poso and Ambon Schulze argues that violence was more likely to occur in places that are on the geographic ideological ethnic and religious periphery of the Indonesian state that violence by non state actors was most protracted in locations where there was a well established alternative national imaginary supported by an alternative historical narrative and that violence by the state was most likely in places where the state had a significant territorial interest Drawing on a vast collection of interviews and archival and published sources Contesting Indonesia provides a new understanding of the history of violence across the Indonesian archipelago
