Amato, 2024-01-29 The Stark Carpathians Ritual Text and Authority Among Ukraine s Hutsuls addresses rituals and texts in a small mountainous area located in today s Ukraine The residents of this remote region are known as the Hutsuls This book argues that Hutsul rituals and texts cast as ancient and extraordinary had more mundane roots They formed out of contact between the region s residents and lowland institutions and they became foundations for everyday life Words and symbolic action had an inherent tension that stemmed from contests over authority The nature of these contests was such that distant officials willful locals and diverse sources of information were often as important as collective traditions in shaping rituals and texts Prolific producers of texts Hutsuls carried on discussions that included diverse topics such as agriculture astrology mass gymnastics divine punishment and witches and vampires This volume covers these and other discussions in their small and exact particulars and it investigates texts and rituals in their fullness and irreducible complexity By crossing traditional lines of inquiry and following the region s winding trails to their divergent ends this book offers insight into a larger Hutsul world Ultimately the study of Hutsul creations informs the study of rituals and texts in many elsewheres far from the Carpathian Mountains **European Nations** Miroslav Hroch, 2015-04-28 One of the world s leading theorists of nationalism offers a new synthesis In the history of modern political thought no topics have attracted as much attention as nationalism nation formation and patriotism A mass of literature has grown around these vexed issues muddying the waters and a level headed clarification is long overdue Rather than adding another theory of nationalism to this maelstrom of ideas Miroslav Hroch has created a remarkable synthesis integrating apparently competing frameworks into a coherent system that tracks the historical genesis of European nations through the sundry paths of the nation forming processes of the nineteenth century Combining a comparative perspective on nation formation with invaluable theoretical insights *European Nations* is essential for anyone who wants to understand the historical roots of Europe s current political crisis *Gathering a Heritage* Thomas M.
