Education Committee for School and College Activities,1948 *Selections from China Mainland Magazines* ,1961 **Aboriginal Peoples, Colonialism and International Law** Irene Watson,2014-10-17 This work is the first to assess the legality and impact of colonisation from the viewpoint of Aboriginal law rather than from that of the dominant Western legal tradition It begins by outlining the Aboriginal legal system as it is embedded in Aboriginal people s complex relationship with their ancestral lands This is Raw Law a natural system of obligations and benefits flowing from an Aboriginal ontology This book places Raw Law at the centre of an analysis of colonisation thereby decentring the usual analytical tendency to privilege the dominant structures and concepts of Western law From the perspective of Aboriginal law colonisation was a violation of the code of political and social conduct embodied in Raw Law Its effects were damaging It forced Aboriginal peoples to violate their own principles of natural responsibility to self community country and future existence But this book is not simply a work of mourning Most profoundly it is a celebration of the resilience of Aboriginal ways and a call for these to be recognised as central in discussions of colonial and postcolonial legality Written by an experienced legal practitioner scholar and political activist AboriginalPeoples Colonialism and International Law Raw Law will be of interest to students and researchers of Indigenous Peoples Rights International Law and Critical Legal Theory The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Collections of United States Joint Publications Research Service Translations in the Social Sciences Emanating from Communist China** United States. The Routledge Handbook of Tourism and Indigenous Peoples Richard Butler, Anna Carr, 2024-08-30 The Routledge Handbook of Tourism and Indigenous Peoples presents an up-to-date critical and comprehensive overview of established and emerging themes around Indigeneity and connections between Indigenous peoples and tourism development. Offering socio-cultural perspectives and multidisciplinary insights from leading Indigenous and non-Indigenous scholars and tourism practitioners, the book explores contemporary issues, challenges, and trends. Organised into six sections, the handbook explores Indigenous community involvement in tourism, Indigenous entrepreneurship and innovation, Indigenous tourism policies and politics, and the complexities of colonialism and decolonisation issues. This text focuses on the active role that Indigenous peoples have in the industry and uses international case studies and experiences to explore the global context of Indigenous tourism. This handbook fills a notable gap by offering a critical and detailed understanding of the role of Indigenous practitioners and societies in tourism and how they interact within the tourism nexus. It will be of interest to scholars, students, tourism practitioners, and policymakers working in tourism development, studies, anthropology, human geography, and sociology.

Phenomenological Inquiry in Education Edwin Creely, Jane Southcott, Kelly Carabott, Damien Lyons, 2020-12-28 Phenomenological Inquiry in Education is an edited collection of 16 chapters that offers a fascinating and diverse range of approaches and views about phenomenological inquiry as applied in educational research. Written by a group of international scholars concerned about understanding lived experience, the editors assemble theoretical ideas, methodological approaches, and empirical research to create a distinctive transdisciplinary outlook. Embodying many unique and useful insights, the book provokes thought about the possibilities for phenomenology in contemporary educational research. The international contributors highlight what an exploration of lived experience can offer qualitative research and extend on methodologies commonly used in educational research. By grounding phenomenological inquiry in the complexities of doing research across discipline areas in education, the writers of the book forge links between theory and empirical research and give their unique perspectives about how phenomenological ideas are being and might be employed in educational research. The book is thus carefully crafted to address both phenomenology as a philosophical tradition and its possibilities for educational research. This scholarly work will appeal to educational researchers as well as those in broader social research. It taps into the growing international interest in phenomenological research in education, which brings attention to lived experience and the highly important affective dimension of learning.
