Nato From Berlin To Bosnia Trans Atlantic Security In Transition:

NATO - from Berlin to Bosnia S. Nelson Drew,1993 *NATO from Berlin to Bosnia* Gordon Press Publishers,1997-06

NATO From Berlin to Bosnia Trans-Atlantic Security in Transition, McNair Paper 35, U.S. Department of Defense, 1995 National Defense University, NATO and the Future of European Security Sean Kay,1998 Tracing NATO's formative years its Cold War development and its post Cold War evolution Sean Kay draws on his policy experience in Brussels and Washington to provide unique insights into contemporary policy challenges including NATO's outreach to the East and its Partnership for Peace peacekeeping and the future of the Balkans enlargement and the role of Russia in Europe NATO's internal military adaptation and the future of the transatlantic relationship Kay argues that although NATO has evolved to some degree it remains an institution dependent upon the United States with uncertain long term prospects for playing a constructive role in Europe Indeed the author shows that if not implemented carefully NATO enlargement may actually decrease rather than increase stability in the region

French Security Policy in Transition Robbin Frederick Laird,1995 Since 1989 French defense and security policy has been undercut by changes in the external environment and domestic pressures to deal with the challenge of economic modernization The Soviet revolution of 1989 the reunification of Germany the collapse of the Soviet Union and the experience of coalition warfare during the Gulf War all have challenged the assumptions and realities underlying the Gaullist synthesis Above all the French position on security independence has been put into question The main hope has been for a European Alliance to supplant the American one over time in the face of a gradual process of change within Europe but change has not been gradual within Europe The European Union is challenged by discontent within Western Europe A new Central Europe has emerged that has yet to find its place in European or global politics A new Russia is emergent in which nationalism is defining an assertive role for the Russians within Europe but at the same time the economic weakness of Russia limits its ability to play such a role

NATO, the European Union, and the Atlantic Community Stanley R. Sloan,2005-07-28 Provides an interpretive history of the trans atlantic alliance and explores critical developments in US European relations The author considers the ongoing pattern of US unilateralism and its consequences as the trans atlantic and intra European debate over Iraq produced deep splits among the allies and eroded European trust in US leadership *Britain, NATO and the Lessons of the Balkan Conflicts, 1991 -1999* Stephen Badsey,Paul Latawski,2004-05-13 This book considers the lessons for Britain the British armed forces and for NATO from the Yugoslav wars of dissolution 1991 1999 with particular emphasis on Kosovo It represents a significant advance in this emerging debate

Security, Strategy and Military Change in the 21st Century Jo Inge Bekkevold,Ian Bowers,Michael Raska,2015-05-22 This edited volume explores and analyses strategic thinking military reform and adaptation in an era of Asian growth European austerity and US rebalancing A significant shift in policy strategy and military affairs is underway in both Asia and Europe with the former gaining increasing prominence in the domain of global security At the same time the

world's powers are now faced with an array of diverse challenges. The resurgence of great power politics in both Europe and Asia along with the long term threats of terrorism, piracy and sustained geopolitical instability has placed great strain on militaries and security institutions operating with constrained budgets and wary public support. The volume covers a wide range of case studies including the transformation of China's military in the 21st century, the internal and external challenges facing India, Russia's military modernization program and the USA's reassessment of its strategic interests. In doing so, the book provides the reader with the opportunity to conceptualize how strategic thinking, military reform, operational adaptation and technological integration have interacted with the challenges outlined above. With contributions by leading scholars and practitioners from Europe and Asia, this book provides a valuable contribution to the understanding of strategic and operational thinking and adjustment across the world. This book will be of much interest to students of military and strategic studies, security studies, defence studies, Asian politics, Russian politics, US foreign policy and IR in general. *Defense of the West* Stanley R. Sloan, 2020-09-11. Written in a lively and readable style by the world's leading authority on the North Atlantic Treaty Organization and US-European relations, *Defense of the West* is the history of a transatlantic security relationship that has endured for over seventy years. This latest edition of a classic work looks at how developments inside NATO and European Union member states affect their ability to defend against external threats while preserving Western values in the era of Trump and Brexit. Sloan frankly addresses the failures and shortcomings of Western institutions and member states. But the book emphasizes the continuing importance of value-based transatlantic security cooperation as a vital element of the defense and foreign policies of NATO and EU member states. At a time of heightened tension and political turmoil at home and abroad, Stan Sloan's lucid and far-sighted analysis is more necessary than ever. NATO in the First Decade after the Cold War Martin A. Smith, 2013-03-09. This book offers an original and distinct analysis of NATO's post-Cold War evolution. Unlike so much of the available literature, it is not focused on what, in the author's opinion, NATO should be doing now that the Cold War is over. Rather, the author offers a comprehensive analysis and overview of the extent to which NATO can undertake new roles, tasks and missions in light of the extent to which it has retained significance and vitality as an international institution. The book's originality also lies in the way in which the author discusses NATO's adaptation within a framework provided by international relations theory and, in particular, concepts which stress the role and importance of transnational political processes and international regimes. So far, these have been little used in the analysis of military security relations and institutions. The book will be of interest to those researching and teaching international relations, European politics and security studies, as well as all those seeking a better understanding of the post-Cold War survival and development of a key international security institution.
