Natural Acts: A Sidelong View of Science and Nature David Quammen, 2009-02-24 A revised and expanded edition of Quammen's first book of nonfiction including the best of his recent work Lively writing about science and nature depends less on the offering of good answers I think than on the offering of good questions said David Quammen in the original introduction to Natural Acts For more than two decades he has stuck to that credo In this updated version of his first essay collection Quammen's lively curiosity leads him from New Mexico to Romania from the Congo to the Amazon asking questions about mosquitoes what are their redeeming merits dinosaurs how did they change the life of a dyslexic Vietnam vet and cloning can it save endangered species This expanded edition returns to print Quammen's best loved Natural Acts columns which first appeared in Outside magazine in the early 1980s and includes recent pieces such as Planet of Weeds an influential Harper's cover story The new Natural Acts is an eye opening journey that will please both Quammen fans and newcomers to his work

Emotion and Cognitive Life in Medieval and Early Modern Philosophy Martin Pickavé, Lisa Shapiro, 2012-10-04 This volume offers a much needed shift of focus in the study of emotion in the history of philosophy Discussion has tended to focus on the moral relevance of emotions and except in ancient philosophy the role of emotions in cognitive life has received little attention Thirteen new essays investigate the continuities between medieval and early modern thinking about the emotions and open up a contemporary debate on the relationship between emotions cognition and reason and the way emotions figure in our own cognitive lives A team of leading philosophers of the medieval renaissance and early modern periods explore these ideas from the point of view of four key themes the situation of emotions within the human mind the intentionality of emotions and their role in cognition emotions and action the role of emotion in self understanding and the social situation of individuals

T&T Clark Handbook of Election Edwin Chr. van Driel, 2023-11-16 Offering not only state of the art introductions from Biblical historical and constructive theologians this volume also fosters an inter disciplinary and cross confessional conversation reclaiming the idea of election as a central notion for any retelling of the biblical narrative Several essays explore the variety of ways in which election is spoken about in the Scripture drawing on research from the last twenty years that offers a more sophisticated framework than the traditionally theological categories of elect and reject The historical part of the volume covers new analyses of Medieval and post Reformation Catholic and Protestant debates on predestination while the book's constructive part contributes to contemporary conversations on the relationship between Trinity Christology and election the development of a post supersessionist understanding of Israel's chosenness as well as voices from contextual struggles in South America Palestine and South Africa
