Natural Earth Living Earth:

Living Earth Bernard Anton,2022-12-07 What are the conceptions of the past civilizations and traditions from five continents on our relationships with nature Do they cast a spiritual glance on those relationships Could their ancestral wisdom have seen a sacred work in the universe Why do they rather call it creation This research will help the reader discover a real interreligious consensus the main religions around the globe are unanimously aware and agree on principles such as the conservation of nature and the quality of the environment A quite clear green message revealed in the greatest beliefs serves as a basis for a universal eco ethic to adopt

Feng Shui: The Living Earth Manual Stephen Skinner,2011-04-11 The ancient Chinese art of Feng Shui the basis of man s relationship with the land has practitioners and followers throughout the Western world from rural communities to big cities Not just an Eastern practice any more Feng Shui can be found around the globe Feng Shui is an art that stresses the importance of living in harmony with nature The Chinese believe that the earth has channels of energy known as dragon lines comparable with the meridians of the human body and the buildings towns and rooms should be designed and constructed so as not to obstruct these channels According to the principles of Feng Shui living in harmony with the earth s field of energy will promote prosperity peace and happiness Living Earth Feng Shui is a fascinating book which outlines how Feng Shui can be applied on a small or large scale in the busiest cities or the smallest room Author Stephen Skinner outlines its history and philosophy clearly showing how it can be used to determine the site and arrangement of dwelling places in order to enhance the quality of life of the inhabitants This is the perfect book for those new to Feng Shui or someone who is interested in expanding their knowledge

Living Earth R.E. Nisbet,2013-12-01 Life has shaped the Earth and the Earth has moulded the history of life That history the co evolution of our ancestors and their horne has much to teach us about our place on the planet today We are part of the fabric of the biosphere As we change that fabric we would be wise to understand how our horne was built Our planet is neither a hotel nor a colony It is not a place which life briefly inhabits during a transient occupation Instead it is our horne designed by the deeds of our ancestors and suited to our own needs The history of life on Earth is held in the geological record which is composed of the rocks water and air that are available for study on the planet s surface These rocks the oceans and the atmosphere are not simply stores of information for the excitement of fossil hunters and geochemists or resources to exploit without thought Their cre ation and continued existence form an integral part of the development and management of the Earth as the horne of life
