McNamara,2010-10 Child Safety Guidelines for Local Churches deals with the sensitive subject of child sexual abuse and what churches can do to protect children under their care while at the same time minimizing their own liability Prevention and training are critical elements in developing a structure that ensures the safety of children while they are in God s house Sadly many churches are unprepared to combat the possibility of the unthinkable happening to one of their precious little ones By not taking reasonable precautions they not only endanger the welfare of their youngsters but are subject to charges of gross negligence and significant financial judgments against their congregations The author outlines numerous steps that any congregation can take to protect both the children and churches they serve ROGER MCNAMARA is a veteran pastor missionary and church planter with more than forty six years of experience in local church ministry in Latin America and the United States He has started and worked in half a dozen churches over the past four decades and now serves as the Church Planting Training Specialist for Baptist Mid Missions In this capacity he works with churches and church planters throughout the United States and Canada teaching training and mentoring church leaders He also serves in a number of leadership positions within the Baptist Mid Missions TEAM NORTH AMERICA as well as the registrar for the School of Church Planting He has published two other books and several leadership training manuals **Relentless** Michele Cushatt,2019-11-12 Where is God when life is filled with so much suffering How can I be sure of God s presence and affection even in my pain Can you believe in God and still wrestle with questions and doubt These are the questions honestly explored in Relentless Whether in struggle illness death or failure the presence of pain causes us to question the presence of God We pray and watch the sky crossing our spiritual fingers for hardcore proof of God s nearness And in the silence we sense something more sinister perceived abandonment But what if we could collect evidence that God hasn t left us What if we could be absolutely certain of God s presence and affection strengthening our faith against any assault Woven throughout Scripture sits a single extraordinary theme God is with us Ours is a God who speaks through burning bushes and leads

through pillars of fire who responds to a broken world by giving himself Like the Old Testament story of Joshua s altar of twelve stones Relentless delivers twelve key biblical stories that demonstrate God s unfailing presence Each chapter offers an invitation to identify a stone in your own life as tangible evidence of God s nearness With the turn of the last page you will have discovered twelve markers of your own an altar of memory to carry you through questions and losses even ones yet to come For the truth seekers those drowning in impossible questions and those who find themselves swallowed up by the dark Relentless is an invitation to search for divine presence in our everyday stories With Michele Cushatt s engaging narrative style this transformational journey reassures us that God indeed is with us Caring for Kids from Hard Places Jayne E. Schooler, Schooler Th D David L, 2024-05-01 Why doesn t he act his age Why does she behave so impulsively Why does he have meltdowns so often There is always meaning behind behavior in all of us It might be a behavioral reaction from something as simple as hunger or exhaustion Or something far more serious a triggered reaction to a traumatic frightening experience Children who have experienced early childhood neglect or trauma are often greatly impacted in developmental ways Children in foster care or who are given up for adoption often deal with these kinds of negative early experiences and it can be difficult to know how to help People who teach either in school or children s ministry often see these youngsters behavior as confusing and don t understand why In *Caring for Kids from Hard Places* Jayne and David Schooler discuss the reasons behind why children and teens sometimes exhibit potentially disruptive behavior Together they offer practical strategies on training equipping and resourcing staff and volunteers to provide a responsive environment for children with behavioral challenges *Caring for Kids from Hard Places* includes Insights on how to understand adverse childhood experiences ACEs Principles for creating a trauma informed environment Strategies for facilitating healing Tips on how to create a sensory smart classroom Discover how to better love children from difficult backgrounds and pave their way for a better life *Right from the Start* Shirley K. Morgenthaler, Shirley K. Morgenthaler, 2001 *Right from the Start* helps readers discover practical and creative ways to teach children about God These pages include many ideas and tools to help readers feel comfortable as spiritual nurturers discover how young children learn and share Christ with them This revised edition also includes new information on children and worship as well as extensive resource lists for parents and children

Completing the Circle David R. McMahill, 2003-01-01 On his second day as association minister for the United Church of Christ David McMahill received three phone calls from lay leaders who were looking for resources on how to evaluate our minister He knew of several churches in which a poorly constructed process for evaluating the ministers had spun out of control however and had gradually come to believe it is probably better for a church not to attempt an evaluation process at all than to do one carelessly or to naively use a design intended for a secular organization Based on the needs he saw McMahill began to work with numerous congregations looking for ways to review both leaders and ministries and developed the feedback reflection process he lays out in this book Based on sound principles of effective communication this simple

system of asking for descriptive feedback about various aspects of a congregation's life together takes into account the specific setting and the unique relationship between minister and congregation *The Race to Reach Out* Michael J. Coyner, Doug Anderson, 2009-06-01 Most church members would tell you that theirs is a friendly congregation eager to welcome visitors and new members into their midst Yet far too many of these same congregations have trouble translating this intention into action Offering a friendly greeting to a new face is important but it is only the first of many steps that congregations must take in order to turn visitors into members and new members into committed disciples The authors believe that to assimilate newcomers into the life and ministry of the congregation the whole church system must be involved Anderson and Coyner demonstrate how to identify and respond to visitors in a nonthreatening yet interested way how to share information about them with the leaders of those ministries and programs in which they would be most interested how best to help them in their decision to become church members and how to help them understand and fulfill their own call to ministry in the congregation They insist that churches be motivated not by a desire for institutional survival or advancement but by a passion for people and their place in the kingdom of God California.
