Safety Sense in the Home Heward Grafftey, McInenly, Richard A, Safety Sense Enterprises, 1990 **Handbook of Children's Risk, Vulnerability and Quality of Life** Habib Tiliouine, Denise Benatuil, Maggie K. W. Lau, 2022-07-30 This handbook makes a major contribution to the growing international research and policy interest in children's experienced well being or quality of life in childhood linking it to ongoing research on children's risk and vulnerability The editors and contributors adopt the broader concept of risk in addition to vulnerability Not much work considers the connections between risks that children experience and their quality of life In examining children's quality of life the chapters discuss various issues of risk and vulnerability that may affect their lives and also how the quality of childhood might be enhanced and maintained even in the face of these factors The chapters discuss experiences of violence and abuse access to basic services such as housing health and education and children's vulnerability due to broader external factors such as war conflict and environmental events The volume also includes the impacts of new technologies on children and the consequent risks and vulnerabilities they may face alongside the benefits This important volume brings together a diverse range of perspectives from established experts and emerging scholars in these fields of work It covers a wide range of geographical and cultural contexts and includes theoretical empirical policy and practice based contributions This handbook is a natural first point of reference for academics and policy professionals interested in quality of life well being and children's rights **From Safety to Sense of Safety** Jenni Spannari, Liz Grant, Monica Worline, Anne Birgitta Pessi, Henrietta Grönlund, Birgitte Johansen, 2025-09-23 The sense of safety is an essential foundation for human flourishing and well being It is a basic human need grounded in the evolutionary history of the human species as a part of the ecosphere However social political and health related global challenges have eroded deeply not only safety but our sense of safety Sense of safety is an individual experience but it is deeply rooted in the social communal and societal frames Thus in research we need to look at the sense of safety understanding that the wider societal situation strongly consists of individual and grass roots level experiences All people notwithstanding their race or age or any other variable need to feel safe Sense of safety is a feeling of relative security a comprehensive yet subjective psychological experience It requires ongoing appraisal closely associated with a person's awareness and perception That is sense of safety is related to safety but never the same and it is always about emotions It is deeply social never just about an individual and should be studied as such Sense of safety is pivotal for individuals communities in societies Interdisciplinary research on sense of safety is scarce and often academically too shallow e g not defining sense of safety as in e g Zacharia et al 2021 Murakami et al 2017 nor even differentiating between safety and sense of safety e g in Zou Yu 2022 Research and mainstream media focus mostly on the large scale picture of safety e g statistics trends in numbers and political reporting But what are the individual level experiences of sense of safety and sense of security today How are they culturally bound and to what extent more universal *Safety, Danger, and Protection in the*

Family and Community Szymon Chrzastowski, Arlene Vetere, 2023-11-08 This book provides an analysis of the meaning of safety and security across the contexts of community and public life throughout the life span and within a therapeutic framework examining threats and the strategies for coping with them The book starts in Part I with a discussion of general safety and security concepts in the socio cultural context Part II of the book details the role of a sense of security in psychological assistance psychotherapy and supervision while Part III centres on safety and security at different life stages Drawing on the tenets of modern attachment theory and trauma theory chapter authors address questions of safety danger and protection for both individuals and groups across a variety of fields of knowledge and expertise Themes such as loneliness play and exploration evil and forgiveness health and death and spirituality and healing are discussed as practice examples learning points and tips A wide range of health and social care professional practitioners will find this book useful in exploring social interpersonal and psychological aspects of safety and security
