Saint Bernard Of Clairvaux Studies Commemorating The Eighth Centenary Of His Canonization:

Saint Bernard of Clairvaux M. Basil Pennington, 1977 *A Companion to Bernard of Clairvaux*, 2011-03-21 Bernard of Clairvaux is perhaps the most controversial figure of Western Europe's vibrant twelfth century Unlike Abelard who is seen as a proponent of modern thinking Bernard is often relegated to the darkest corner of the Middle Ages Nothing is easy with Bernard but these fresh evaluations of him and their reviews of recent scholarship enable the reader to make a more balanced evaluation of the man his writings and his impact on his period Bernard emerges as a multifaceted figure who sought to reform monasticism and ended up becoming a saint with an appeal to virtually all classes in medieval society Bernard lives on today with the lay and monastic scholars who continue to find new layers of meaning in his writings Contributors include Christopher Holdsworth Michael Casey James France Diane Reilly John Sommerfeldt Mette B Bruun Burcht Pranger Chrysogonus Waddell E Rozanne Elder and Brian Patrick McGuire **The Cistercian Order in Medieval Europe** Emilia Jamroziak, 2015-06-22 The Cistercian Order in Medieval Europe offers an accessible and engaging history of the Order from its beginnings in the twelfth century through to the early sixteenth century Unlike most other existing volumes on this subject it gives a nuanced analysis of the late medieval Cistercian experience as well as the early years of the Order Jamroziak argues that the story of the Cistercian Order in the Middle Ages was not one of a Golden Age followed by decline nor was the true Cistercian spirit exclusively embedded in the early texts to remain unchanged for centuries Instead she shows how the Order functioned and changed over time as an international organisation held together by a novel management system from Estonia in the east to Portugal in the west and from Norway to Italy The ability to adapt and respond to these very different social and economic conditions is what made the Cistercians so successful This book draws upon a wide range of primary sources as well as scholarly literature in several languages to explore the following key areas the degree of centralisation versus local specificity how much the contact between monastic communities and lay people changed over time how the concept of reform was central to the Medieval history of the Cistercian Order This book will appeal to anyone interested in Medieval history and the Medieval Church more generally as well as those with a particular interest in monasticism **Bernard of Clairvaux On the Life of the Mind** John R. Sommerfeldt, 2004 **Letters of Ascent** Michael C Voigts, 2014-08-28 Bernard of Clairvaux is best known by many today for his mystical approach to spirituality and his eloquent sermons on the Song of Songs In his letters however a different Bernard emerges one who had fled the world for the cloister yet possessed a soaring vision for the Church on earth By examining select letters and placing them in the larger context of the people and the world around him we discover a man who loved the Church but who realized that the Church is compromised of individuals who did not share his ideals and agendas In *Letters of Ascent* we travel to medieval Europe and view society through the eyes of one of history's most passionate ecclesiastical reformers **The Cambridge Companion to the Cistercian Order** Mette Birkedal Bruun, 2013 Presents the Order's figureheads practical

life and spiritual horizon and its contribution to medieval Europe's religious cultural and political climate **The Lost Love Letters of Heloise and Abelard** Constant J. Mews, 2016-09-23 This new edition offers fascinating insights into one of the most celebrated love affairs of the Middle Ages A new chapter charts the debate about the letters and offers fresh evidence to attribute them to Abelard and Heloise The complete Latin text is reproduced with an annotated translation by Chiavaroli and Mews **Bernard Of Clairvaux** Adrian H. Bredero, 2004-07-01 Bredero has produced a book that summarizes his lifelong preoccupation with the greatest saint of the twelfth century The problem that intrigues Bredero is the tension between Bernard the powerful churchman resented by many contemporaries and by many interpreters still today and Bernard the monk master communicator of the most intimate spiritual experiences beloved by numerous contemporaries by John Calvin and by many readers still today A magisterial overview John Van Engen in Church History Adriaan H Bredero first began reading Bernard of Clairvaux in 1944 as a young university student forced into hiding by the Nazi occupation of the Netherlands Over the past sixty years Bredero's academic interest in Bernard has branched out to cover topics as diverse as the historical value of the *vita prima* Bernard's part in the conflict between Cîteaux and Cluny and the image of St Bernard as it has been developed by hagiographers and scholars through the ages Bernard of Clairvaux Between Cult and History summarizes Bredero's lifelong study of Bernard the Cistercian monk who was arguably the most influential ecclesiastical figure of the twelfth century and who remains one of the church's most venerated saints *Holy Power, Holy Presence* Elizabeth Dreyer, 2007 Western theology is frequently criticized for not having a fully developed pneumatology According to these critics preoccupation with Christology and an excessive focus on the nature and unity of God have come at the expense of a full theology of the three persons While admitting that there is some truth to these criticisms Elizabeth Dreyer maintains that those who level them base their conclusions on a narrow range of texts and thus fail to establish a true neglect of the Holy Spirit Medieval authors offer a wealth of creative language and insight that speaks to the role of the Holy Spirit in contemporary spirituality and contributes to a renewed pneumatology for the twenty first century Book jacket [A History of Christian Thought Volume II](#) Dr. Justo L. Gonzalez, 2010-09-01 A treatment of the evolution of Christian thought from the birth of Christ to the Apostles to the early church to the great flowering of Christianity across the world Beginning with Augustine Volume 2 covers the flowering of Christian thought that characterized both the Latin West and the Byzantine East during the Middle Ages
