France United States. Office of Geography,1964 Nearly the whole of America s partisan politics centers on a single question Can markets solve our social problems And for years this question has played out ferociously in the debates about how we should educate our children From the growth of vouchers and charter schools to the implementation of No Child Left Behind policy makers have increasingly turned to market based models to help improve our schools believing that private institutions because they are competitively driven are better than public ones With The Public School Advantage Christopher A and Sarah Theule Lubienski offer powerful evidence to undercut this belief showing that public schools in fact out perform private ones United States Board on Geographic Names: Gazetteer United States Board on Geographic Names,1955
