Gülen Joshua D. Hendrick,2013-08-12 The Hizmet Service Movement of Fethullah Gülen is Turkey's most influential Islamic identity community Widely praised throughout the early 2000s as a mild and moderate variation on Islamic political identity the Gülen Movement has long been a topic of both adulation and conspiracy in Turkey and has become more controversial as it spreads across the world In *Gülen* Joshua D Hendrick suggests that when analyzed in accordance with its political and economic impact the Gülen Movement despite both praise and criticism should be given credit for playing a significant role in Turkey's rise to global prominence Drawing on 14 months of ethnographic fieldwork in Turkey and the U S Hendrick examines the Gülen Movement's role in Turkey's recent rise as well as its strategic relationship with Turkey's Justice and Development Party led government He argues that the movement's growth and impact both inside and outside Turkey position both its leader and its followers as indicative of a post political turn in twenty first century Islamic political identity in general and as illustrative of Turkey's political economic and cultural transformation in particular Joshua D Hendrick is Assistant Professor of Sociology and Global Studies at Loyola University Maryland in Baltimore

Lino Camprubi, 2014-05-02 How engineers and agricultural scientists became key actors in Franco's regime and Spain's forced modernization In this book Lino Camprub argues that science and technology were at the very center of the building of Franco's Spain Previous histories of early Francoist science and technology have described scientists and engineers as working under Francoism subject to censorship and bound by politically mandated research agendas Camprub offers a different perspective considering instead scientists and engineers active roles in producing those political mandates Many scientists and engineers had been exiled imprisoned or executed by the regime Camprub argues that those who remained made concrete the mission of redemption that Franco had invented for himself This gave them the opportunity to become key actors and mid level decision makers within the regime Camprub describes a series of projects across Spain undertaken by the civil engineers and agricultural scientists who placed themselves at the center of their country's forced modernization These include a coal silo built in 1953 viewed as an embodiment of Spain's industrialized landscape links between laboratories architects and the national Catholic church and between technology and authoritarian control vertically organized rice production and research on genetics river management and the contested meanings of self sufficiency and the circulation of construction standards by mobile laboratories as an engine for European integration Separately each chapter offers a fascinating microhistory that illustrates the coevolution of Francoist science technology and politics Taken together they reveal networks of people institutions knowledge artifacts and technological systems woven together to form a new state

False Dawn Lee Penn, 2004 The interfaith movement which began with the 1893 World s Parliament of Religions in Chicago has grown worldwide Although this movement has been largely unknown to the public it now provides a spiritual face for globalization the economic and political forces leading us all from nationalism to One World The most ambitious organization in today s interfaith movement is the United Religions Initiative URI founded by William Swing the Episcopal Bishop of California Investigative reporter Lee Penn a Catholic ex Marxist exhaustively documents the history and beliefs of the URI and its New Age and globalist allies the vested interests that support these movements and the direction they appear to be taking The interfaith movement is no longer merely the province of a coterie of little heeded religious idealists with grandiose visions The URI s proponents have ranged from billionaire George Soros to President George W Bush from the far right Rev Sun Myung Moon to the liberal Catholic theologian Hans K ng and from the Dalai Lama to the leaders of government approved Protestant churches in the People s Republic of China The interfaith movement including the URI is being promoted by globalist and New Age reformers who favor erosion of national sovereignty marginalization of traditional religions establishment of global governance and creation of a new Earth based global spirituality in effect a one world religion Therefore the URI and the interfaith movement are poised to become the spiritual foundation of the New World Order the new civilization now proposed by Mikhail Gorbachev the last leader of the Soviet Union In The Reign of Quantity and the Signs of the Times French metaphysician Ren Gu non spoke of the anti tradition the forces of materialism and secular humanism finally giving way to the counter tradition the satanic inversion of true spirituality leading to the regime of Antichrist The anti tradition weakens and dissolves traditional spiritualities after which the counter tradition sets up a counterfeit in their place Since Gu non s time as is well known anti traditional forces have greatly advanced worldwide It is less well known that counter traditional movements have also made great strides and now stand closer to the centers of global political and religious power than ever before The counter tradition is making inroads on the political and cultural Right as much as it is doing on the Left False Dawn painstakingly documents these trends and

speculates on their future development In so doing the author takes investigative reporting to the threshold of prophecy and gives us a stunningly plausible picture of the global religious landscape of the 21st century This extraordinary project is the literary equivalent of turning over a flat rock There is much to be seen and learned here all of it unsettling disquieting occasionally downright scary William Murchison Radford Distinguished Professor Baylor University When a bishop of a Christian church happily worships alongside a Wiccan invoking other gods something has gone horribly wrong In False Dawn Lee Penn has produced a comprehensive and critical history of the United Religions Initiative This book sounds a clear warning Anyone who makes theological truth subservient to utopianism denigrates all religions Douglas LeBlanc Editor GetReligion org [Encyclopedia of Fundamentalism: Volume 3 of Religion & Society](#) Brenda Brasher,2001-10-19 The Encyclopedia of Fundamentalism is the third volume of the acclaimed Religion Society series The Encyclopedia of Fundamentalism follows a broad definition of fundamentalism and covers fundamentalism across time and place although the emphasis remains on its primary manifestation Protestant fundamentalism in the United States It draws upon the work of historians sociologists religious scholars anthropologists political scientists and others
