Saints As Citizens A Guide To Public Responsibilities For Christians:

Saints as Citizens Timothy R. Sherratt, 1995 Five Foundations of Human Development Errol A. Gibbs, Philip A. Grey, 2006-10-01 Five Foundations of Human Development FFHD Is our Materially Driven Life a Threat to the Spiritual Purpose of our Existence The book is a philosophical religious and practical discourse on Five Foundations of Human Development It offers compelling philosophical analytical and empirical arguments for a better world which is inherent in the worship of God service to humanity obedience to governing authorities and management of God's creation The authors examine problems that we encounter daily and they postulate solutions from Spiritual moral social intellectual and physical perspectives They essentially explore some of our past and present approaches to solutions to human problems They propose new revolutionary approaches to human development that call the reader's attention to a new enlightenment new hope and new optimism informed by a new Body of knowledge The authors strive to explain the Christian message of God as delivered and taught by Jesus Christ however it is not a work that is exclusively for Christians Their discourse recognizes the comparable message and desire for the unity of humanity by other world religions They present their discourse not as experts or giving expert advice but simply as individuals with a desire to add another dimension of thought and enquiry to the vast storehouse of human knowledge The primary purpose of their discourse is to demonstrate the positive benefits to humanity when Biblical religious perspectives underpin every human endeavor These endeavors include but are not limited to family relations national and international relations engineering science and technology economics history education and health These endeavors dictate human progress Gibbs and Grey contend that humanity can realize the greater ideals of leadership and authority in the world through the application of the teachings of Jesus Christ and the great prophets The authors appeal to leaders of the 21st century educational political scientific and business to seek the knowledge wisdom and understanding of God in using our vast global natural wealth science technology and human capital to educe relevant and applicable strategies for the betterment of all humanity Genre Christianity Religion Inspirational Religion Enlightenment Philosophy General **The Complete Book of Everyday Christianity** R. Paul Stevens, Robert Banks, 2018-12-01 I am thrilled to know that The Complete Book of Everyday Christianity is being relaunched A well worn first edition of this book sits next to my office desk and I consult it often There is no better collection of everyday issues examined from a Christian perspective A wide variety of topics are addressed with a cleverly balanced combination of academic and practical perspectives informed by thoughtful biblical and theological reflection This is a wonderfully useful tool I am pleased that it will be available to resource a new generation of Christians who are eager to understand more about what it means to follow Christ in every aspect of life Alistair Mackenzie Senior Lecturer School of Theology Mission and Ministry Laidlaw College Christchurch New Zealand Also Director of Faith at Work NZ **Christians in Active Politics** Yokoniah Mvula, 2022-09-16 Some Christians may be uncomfortable to think of Jesus as being political since the word politics or political has evolved to

have negative overtones and connotations in our world today particularly in Africa where this monograph from the Department of Theology and Religious Studies of the University of Malawi has originated Christians often argue that their commission or job description does not include the political process which is the way a society conducts its public affairs However Jesus beginning with his temptation as in the gospels of Matthew and Luke showed the people who would follow him what it means to do God's will The third temptation conceived of in this study as a political temptation for power is the rational behind the arguments made in this study which begins by positing that the message of Jesus was not politically neutral and therefore Christianity as a super culture must be active in all sectors affecting social concerns if it is to truly be the change agent who Christ believes it to be It goes on to define and describe what it means to say that the message of Jesus was political and lays out the biblical theological ethical and experiential rationale for Christians active participation in the secular political arena

The Re-enchantment of Political Science Thomas W. Heilke, Ashley Woodiwiss, 2001-01-01 Religion and politics appear together in newspaper headlines more today than ever before Questions about the relationship between religion and politics on theoretical historical and behavioral levels are likewise heavily debated behind the front pages by scholars in political science who demonstrate the new Christian thinking The Re Enchantment of Political Science engages these scholars in an interdisciplinary conversation concerning the identity and ends of Christian political science It considers whether and to what extent the community of Christian scholarship within its own narrative religious traditions can add a distinctive and significant dimension to the discipline of political science Contributors also explore how the new Christian thinking informs political theory and its subfields including liberalism communitarianism and critical theory Finally the book describes how policy studies are possible within a Christian framework using standard scholarly tools of analysis The Re Enchantment of Political Science in revealing the growing theoretical and methodological sophistication of faith informed political science charts the terrain of political science today

Power Made Perfect? Timothy R. A. Sherratt, 2016-03-02 How would politics be different if Christians acknowledged Jesus Christ as the archetype of all rulers democratic and nondemocratic How would our practice of politics change if we recognized the suffering love of Christ as the truest exercise of power Power Made Perfect offers a distinctive approach to government and politics It is important the author argues to ask how creation provides guidance for political conduct for politics to be an exercise in piety and to approach politics in a fallen world with prudence and not in pursuit of ultimate solutions But it is even more important to begin with Jesus Christ Christ is the rightful ruler of the world who exercises power by suffering and dying for guilty humans All political activity is held to the standard of Christ's sacrifice In this book Timothy Sherratt surveys major Christian political initiatives and schools of Christian political thought with a particular emphasis on American politics before outlining ways in which Christians in churches can practice faithful political engagement

Gibbs, Philip A. Grey, 2011-06-08 Five Foundations of Human Development FFHD is a philosophical religious and practical discourse on human development based on the following five foundations Spiritual Moral Social Intellectual and Physical The authors proffer that human beings possess the capacity to rise to a higher state of civilization when we allow Spiritual Intelligence to underpin human intelligence as our capable guide The indomitable spirit within human beings that brought civilization out of the Dark Ages and into an Age of Enlightenment demonstrates our capacity to transcend moral hope and optimism for a better world with peaceful coexistence among individuals families and nations This book will help inform enlighten and empower individuals and leaders in such fields as engineering science religion politics the military and other great institutions to engender solutions to the myriad of unsolved problems of past centuries problems of the present and emerging problems of the future Problems such as wars genocide greed and the exploitation of human beings begin within our destructive spiritual nature and manifest in the physical nature Therefore solutions also lie in the spiritual realm as a counterbalance to the natural realm of human existence FFHD is a blueprint for human survival based on adherence to physical laws and spiritual laws that transcend a belief in an omnipotent all powerful omnipresent everywhere and omniscient all knowing being It will awaken

the conscience to comprehend the lifethreatening issues that face humankind The solutions therefore cannot merely be left only to the educated elite the military forces and those in high public and private office The global significance of this book is that it informs a more communal view of our world It is the only perspective that will allow us to enter the global village prepared for the racial social cultural environmental and economic challenges that lie ahead *Thoughts to Enlighten and Empower the Mind* Errol A. Gibbs, Philip A. Grey, 2011-06-16 *Thoughts to Enlighten and Empower the Mind* is a compilation of two thousand and one questions and philosophical thoughts extracted from the authors seminal work *Five Foundations of Human Development* These thoughts follow the same chronology of information that helps to promote fulfilling lives through human development from spiritual moral social intellectual and physical perspectives The authors proffer that human beings possess the capacity to rise to a higher state of civilization when we allow our thoughts to permeate our minds with hope and optimism for the future of humanity Gibbs and Grey support the premise put forward by many great writers who contend that our thoughts determine happiness and effectiveness in life Our thoughts and our emotions have a great influence on our carnal impulses and desires We nurture good and bad thoughts and human effort alone is insufficient to properly manage them Negative thoughts establish barriers to communications and harmonious living Positive thoughts radiate harmony among individuals and nations More importantly those in positions of great power who lead humanity must by their thoughts help to create a better world or inadvertently plunge humanity into great chaos as has been recorded in six thousand years of human history Only a mind that is free of unhealthy thoughts transcends a life of fulfillment Positive thoughts permeate our beings and open up new frontiers of positive leadership for the modern age The global significance of this book is that it informs a more communal view of our world by virtue of the conditioning of our thoughts It will help inform enlighten and empower the minds of leaders to embrace every field of endeavor including engineering science religion politics the military and the environment This will be accomplished with the most vital creative and positive thoughts that rise to a high level of responsibility for the betterment of all humanity
