Performance Profiles of Major Energy Producers ,1996 The Management of International Acquisitions John Child,David Faulkner,Robert Pitkethly,2003 This book addresses two important areas of concern for managers and management researchers What are the management challenges involved in the acquisition of a foreign subsidiary Why do companies pursue a strategy of growth through acquisition when the evidence shows performance is disappointing In addition to addressing these questions the authors examine both the acquisitions of foreign companies in the UK and the acquirers themselves They discuss the theoretical background to the debate over the significance of national management practices as opposed to international norms of practice shaped by global forces transcending national boundaries They then compare and contrast the management practices of the five countries from which the acquirers covered in this book originate the UK the USA Japan France and Germany The authors research indicates that while considerable convergence is taking place on many dimensions of management practice distinct national management styles still exist among acquiring companies The findings also show that although some policies are generally associated with better post acquisition performance across the board no one national approach is more successful than another so long as it is implemented with confidence determination and consistency Failure tends to follow from a lack of these qualities rather than from having the wrong management style **Resources in Education** ,1994 Sales Force Management Joseph F.
