A Hobo's Son and an Orphan Girl Bob Bristow, 2024-06-06 This book started out as a set of adventure stories that have been published locally in several outdoor newsletters These stories were so well received that the adventures in other parts of the life of the author and his family were added A love story naturally evolved because that was what kept them going and led them from the wilderness where they grew up to the big cities working in politics aerospace and other advanced technologies They combined this city work with many kinds of adventures mostly adventures in wild and unexplored mountains The love became obvious as Bob struggled for over 50 years to satisfy a promise he made to a 13 year old girl in grade school Someday I will build you a castle on a mountain The book is interesting because it describes a lifetime of outdoor adventures and the effort of two kids to stay alive and progress up the social ladder The relevant message is that two very poor kids at the bottom of the social ladder can not only survive but rise to the top The story is unique because the adventures have been experienced by no one else From Bob falling off an 80 foot cliff to Luci battling a new form of cancer that was supposed to take her life Readers should take away a good feeling reading about successfully living through many adventures in the mountains and in social life About the Author Bob Bristow has a BS in Mechanical Engineering an MS in aeronautical Engineering and all PhD coursework completed in Aerospace Engineering He worked for Boeing for over 60

years where he built and ran his own research lab He was an elder in his church and was involved in many professional organizations Bob enjoys skiing scuba diving mountain climbing fishing and hunting He is most passionate about prospecting and mining *Shelikof* Homer Kizer,2012-07-01 *North American Cornucopia* Ernest Small,2013-09-23 Many North American plants have characteristics that are especially promising as candidates for expanding our food supply and generating new economically competitive crops This book is an informative analysis of the top 100 indigenous food plants of North America focusing on those species that have achieved commercial success or have substantial market potential The book's user friendly format provides concise information on each plant It examines the geography and ecology history economic and social importance food and industrial uses and the economic future of each crop *Alaska Tracks* Randall Zarnke,2013-11-01 Author and historian Randy Zarnke has compiled a collection of irreplaceable stories of long time Alaskans who have lived lives most of us can only dream of Truly remarkable men like Jim Rearden and Red Beeman are the kinds of outdoorsmen who have given back more than they have ever taken furthering the causes of conservation and fair chase hunting through exemplary lives Rearden a long time member of the Alaska Board of Game and one of the founders of the wildlife management program at the University of Alaska is the dean of Alaska outdoor writers and authors His writings have always counseled the wise use of natural resources and he has never backed down from slamming the spoilers who are motivated only for quick profit Red Beeman is a master guide schooled in the old traditions of fair chase hunting Never one to blow his own horn Beeman provided his hunters with first class excursions his clients safe in knowing their trophies would be handled professionally all the meat salvaged and cared for expertly and no better fair chase hunt could be found in Alaska These men and others in Randy's book are sadly fading from the scene and it is a joy to know that at least a little of their stories will be preserved for future generations to emulate and learn from *Piano Tide* Kathleen Dean Moore,2017-12-12 Do we belong to the Earth or does the Earth belong to us The question raised by Chief Seathl almost two centuries ago continues to be the defining quandary of the wet wild rainforests along the shores of the Pacific Northwest It seethes below the tides of the fictional town of Good River Harbor a little village pressed against the mountains homeland to bears whales and a few weather worn families In *Piano Tide* the debut novel by award winning naturalist philosopher activist and author Kathleen Dean Moore we are introduced to town father Axel Hagerman who has made a killing in this remote Alaskan harbor by selling off the spruce the cedar the herring and halibut But when he decides to export the water from a salmon stream he runs head long into young Nora Montgomery just arrived on the ferry with her piano and her dog Nora has burned her bridges in the lower 48 and she aims to disappear into this new homeland with her piano as her anchor But when Axel's next business proposition a bear pit turns lethal Nora has to act The clash when it comes is a spectacular and transformative act of resistance *Oz Clarke's Pocket Wine Guide 2009* Oz Clarke,2008-11 Indispensable as ever Oz Clarke's now classic pocket wine guide has been thoroughly and meticulously revised and updated for 2009 with much anticipated lists of favorite
