International Sound of Latin Music, 1940-1990 Benjamin Lapidus, 2020-12-28 New York City has long been a generative nexus for the transnational Latin music scene. Currently there is no other place in the Americas where such large numbers of people from throughout the Caribbean come together to make music. In this book Benjamin Lapidus seeks to recognize all of those musicians under one mighty musical sound, especially those who have historically gone unnoticed. Based on archival research, oral histories, interviews, and musicological analysis, Lapidus examines how interethnic collaboration among musicians, composers, dancers, instrument builders, and music teachers in New York City set a standard for the study, creation, performance, and innovation of Latin music. Musicians specializing in Spanish Caribbean music in New York cultivated a sound that was grounded in tradition, including classical jazz and Spanish Caribbean folkloric music. For the first time, Lapidus studies this sound in detail and in its context. He offers a fresh understanding of how musicians made and formally transmitted Spanish Caribbean popular music in New York City from 1940 to 1990. Without diminishing the historical facts of segregation and racism the musicians experienced, Lapidus treats music as a unifying force. By giving recognition to those musicians who helped bridge the gap between cultural and musical backgrounds, he recognizes the impact of entire ethnic groups who helped change music in New York. The study of these individual musicians through interviews and musical transcriptions helps to characterize the specific and identifiable New York City Latin music aesthetic that has come to be emulated internationally.

Nor-tec Rifa! Alejandro L. Madrid, 2008-03-21 At the dawn of the twenty-first century, the Nor-tec phenomenon emerged from the border city of Tijuana and through modern Internet technology quickly conquered a global audience. Marketed as a kind of ethnic electronic dance music, Nor-tec samples sounds of traditional music from the north of Mexico, transforming these sounds through computer technology used in European and American techno music and electronica. In *Nor-tec Rifa*, Alejandro L. Madrid crafts a fascinating account of this music and the city that fostered its birth. With an impressive hybrid of musicology, ethnomusicology, cultural and performance studies, urbanism, and border studies, *Nor-tec Rifa* offers compelling insights into the cultural production of Nor-tec as it stems from norte-a banda and grupera traditions.

Rebel Dance, Renegade Stance Umi Vaughan, 2012-10-17 *Rebel Dance, Renegade Stance* shows how community music makers and dancers take in all that is around them socially and globally and publicly and bodily unfold their memories, sentiments, and raw responses within open spaces designated or commandeered for local popular dance. Umi Vaughan, an African American anthropologist, musician, dancer, and photographer, planted in Cuba, planted living like a Cuban, reveals a rarely discussed perspective on contemporary Cuban society during the 1990s, the peak decade of timba and beyond, as the Cuban leadership transferred from Fidel Castro to his brother. Simultaneously, the book reveals popular dance music in the context of a young and astutely educated Cuban generation of fierce and creative performers. By looking at the experiences of black Cubans and exploring the notion of Afro-Cuba, *Rebel Dance, Renegade Stance* explains timba's evolution and achieved significance in the larger context of Cuban culture. Vaughan discusses a maroon aesthetic extended beyond the colonial era.

to the context of contemporary society describes the dance spaces of Cuba and examines the performance of identity and desire through the character of the *especulador*. This book will find an audience with musicians, anthropologists, ethnomusicologists, interdisciplinary specialists in performance studies, cultural studies, and Latin American and Caribbean studies, as well as laypeople who are interested in Atlantic African and African American/Africana studies and/or Cuban culture.

The Great Woman Singer Licia Fiol-Matta, 2017-01-06 Licia Fiol-Matta traces the careers of four iconic Puerto Rican singers: Myrta Silva, Ruth Fernández, Ernestina Reyes, and Lucecita Benítez to explore how their voices and performance style transform the possibilities for comprehending the figure of the woman singer. Fiol-Matta shows how these musicians, despite seemingly intractable demands to represent gender norms, exercised their artistic and political agency by challenging expectations of how they should look, sound, and act. Fiol-Matta also breaks with conceptualizations of the female pop voice as spontaneous and intuitive, interrogating the notion of the great woman singer to deploy her concept of the thinking voice: an event of music, voice, and listening that rewrites dominant narratives. Anchored in the work of Lacan, Foucault, and others, Fiol-Matta's theorization of voice and gender in *The Great Woman Singer* makes accessible the singing voice's conceptual dimensions while revealing a dynamic archive of Puerto Rican and Latin American popular music.
