Emerging Marine Biotoxins Ana Gago-Mart´inez,Arjen Gerssen,2019-08-27 The emergence of marine and freshwater toxins in geographical areas where they have never been reported before is a concern due to the considerable impact on sea food contamination and consequently on public health Several groups of marine biotoxins in particular tetrodotoxins ciguatoxins and palytoxins are included among the relevant marine biotoxins that have recently emerged in several coastal areas A similar situation has been observed in freshwater where cyanobacterial toxins such as microcystins could end up in unexpected areas such as the estuaries where shellfish are cultivated Climate change and the increased availability of nutrients have been considered as the key factors in the expansion of all of these toxins into new areas however this could also be due to more intense biological invasions more sensitive analytical methods or perhaps even an increased scientific interest in these natural contaminations The incidences of human intoxications due to the consumption of seafood contaminated with these toxins have made their study an important task to accomplish in order to

protect human health This Special Issue has a focus on a wide variety of emerging biotoxin classes and techniques to identify and quantify them *Field & Stream* ,2000-10 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations *Boating Life* ,2004 **Encyclopedia of Marine Biotechnology** Se-Kwon Kim,2020-08-04 A keystone reference that presents both up to date research and the far reaching applications of marine biotechnology Featuring contributions from 100 international experts in the field this five volume encyclopedia provides comprehensive coverage of topics in marine biotechnology It starts with the history of the field and delivers a complete overview of marine biotechnology It then offers information on marine organisms bioprocess techniques marine natural products biomaterials bioenergy and algal biotechnology The encyclopedia also covers marine food and biotechnology applications in areas such as pharmaceuticals cosmeceuticals and nutraceuticals Each topic in Encyclopedia of Marine Biotechnology is followed by 10 30 subtopics The reference looks at algae cosmetics drugs and fertilizers biodiversity chitins and chitosans aeroplysinin 1 toluquinol astaxanthin and fucoxanthin and algal and fish genomics It examines neuro protective compounds from marine microorganisms potential uses and medical management of neurotoxic phycotoxins and the role of metagenomics in exploring marine microbiomes Other sections fully explore marine microbiology pharmaceutical development seafood science and the new biotechnology tools that are being used in the field today One of the first encyclopedic books to cater to experts in marine biotechnology Brings together a diverse range of research on marine biotechnology to bridge the gap between scientific research and the industrial arena Offers clear explanations accompanied by color illustrations of the techniques and applications discussed Contains studies of the applications of marine biotechnology in the field of biomedical sciences Edited by an experienced author with contributions from internationally recognized experts from around the globe Encyclopedia of Marine Biotechnology is a must have resource for researchers scientists and marine biologists in the industry as well as for students at the postgraduate and graduate level It will also benefit companies focusing on marine biotechnology pharmaceutical and biotechnology and bioenergy
